1939.

Glacier Park.

Goodsir Camp.

Auto trip - Wash & Ore.

Sunday June 25th

Left Broad St. Station at twenty minutes to twelve D.S.T. (10:40 E.S.T.) Had drawing room & one lower berth outside for Miss Siglin - A bumpy night with severe bumps especially at Pittsburgh - Time changed at Fort Wayne ~~next~~ day.

Monday June 26th En route to Chicago where we arrived at 4:55 C.S.T. Took taxi to movie, Deanna Durbin in "Three Smart girls grow up" & "Hound of the Baskervilles" followed by vaudeville which we skipped & came out. Near accident in taxi going back to station. All through forward & Cute & Sig both got bruises - Dinner

in Station when I phoned Kramers. got in car about 9:30 C.S.T. & Aletta came down. (takes one hour from Highland Park) Stayed till 10:45. Train left 11:15 & we all slept well.
Tuesday, June 27. En route. Mother & I slept till 9:30. Delish wheat cakes for breakfast. Good train, best dinner & sunbath trip. D.R. is cooler than main train. P.R.R. one much hotter - St. Paul 8:50 AM Minn. 9:15 - 9:20. Fargo 3:15 pm (Minn - N.D. State line) Grand Forks 5:15 pm; Devils Lake 7:50 pm when Sig knows a P.H. nurse. Minot (Mine-it) 10:45 pm. Slept well again.
Wednesday June 28. Mother woke me at 7:10 thinking it 9:10 am. Changed to mountain Time at

Williston this morning at 1:50. & she put clock forward! Havre at 7:50 am. Arrive glacier at 12:50 - Have 11 pieces of hand baggage & 6 checked! Car has arrived - to be unloaded immediately - walked to hotel, lunch right away as dining room closes at 1:30 - Then to rooms 407 & 409. Went to station & got car immediately - Rest, bathe, dinner at 7 pm. Drive after dinner about village - tourist cabins & their appendages - RR comes in from north which is confusing - Are on Indian Reservation - 3 Kinds of Blackfeet, Piegans one of the three.

Thursday June 29th To go to Two Medicine Lake chalet for lunch. Took car to G.P. Transportation

Motor to Two Med. Chalets for lunch

Co. garage to be checked & washed. Left about 11 am. 12 miles from Glacier P. to Wed.. Excitement over bear grass which we didn't know & Sig climbed bank to see All picked & labeled at Med Lake. Decide to come to Two Med to-morrow after looking at cabins which have baths & central sitting room with fire place. Right on lake & we hunt goat with glasses & telescope. Friendly college people wait on table & look after you. Left about 2:15 to come home, rest & pack, & start this diary. Indian pow pow in "Convention Hall" for convention of Doctors from N.W. who are here. Talk by chief Indian who explained tribes. 3 Blackfeet tribes. Blackfeet Piegans, Bloods. Five men 3 squaws

Move to Two Med. Chalet

+ 2 children - Sang, danced, initiated 3 of audience 2 men + a woman into tribe - Ended in dance by all.

Friday June 30. Packed up sorting out baggage + leaving lot at g. P. Hotel. Small suit cases all in back of car. Then to Two. Med. Lake where we have two rooms in cottage with bath, Sitting room outside shared by occupants of other two rooms, has fire place; looks out on lake - good breeze most of time wh. keeps off mosquitoes + flies. Nice dinner - ordered lunch for tomorrow. to go to Two Medicine Pass. At table with a Miss Robinson fr. Minneapolis - school teacherish who walks. has been in Yellowstone. I went down to camp ground camp fire circle to hear Ranger - naturalist talk Two there Hetherington + Lindsay (?) one from Lafayette College - also

fire warden who told us about forest fire fighting - Ranger's talk on trees - mentioned blister rust which has attacked white pine here & in C. Rockies for last couple of years. Boy travelling in trailer from Toledo at fire circle, on way to Jasper tomorrow Took 3000 pictures last year & develops them in trailer - quite nice. Cross-section of American people at fire straggling in as ranger talked. Lovely camp-site - best in park so Ranger said. Moon came up over mountain as we sat there. Mosquits thick. Came back just before ten.

Saturday July 1st walked alone up south side of lake trail - (out of sight of lake) to Astu Creek 1/2 hr. to branch in trail 1/2 hr. (right fork goes to launch landing & upper Med) to Rockwell Falls (3 pitches) 1/2 hr. more. Then

Psends-Two Medicine Pass trip.

up to aeplands. Left at 8:30 am
In stragly timber by 11 am. Cut
up jagged peak to left & almost
climbed to top - was on second higher.
Came back to reach ridge at 12:55
when I promised to flash signal
(with World's Fair mirror) to Martha
at chalet. Cut around ridge to save
time & also avoid high wind on ridge
got in sight of chalet just in time
to wave at appointed time. Sun almost
behind me so flash was feeble. Saw
several people out at chalet & big
flash on lake which seemed to be
Cute's answer - waved jacket & moved
along skyline - was sure they saw
me. (Cute said they looked & looked
& saw nothing!) went along ridge
to pass by Mt. Rockwell. Scared 5
lives (no babies - were they very young rams?)
who dashed across shale slope &

Pseudo Tatoosh Pass trip.

then up on buttress above me where they lay down. Ate lunch by two very tiny lakes (wouldn't be there in August - snow banks above) High wind. Then down by trail seeing two big mama goats on cliffs leading each a baby goat up ahead of them Down snow banks & then on trail. Feet very tired from boots, bathed them in stream below Rockwell Falls. Chalet about 5:20. Mail came & filter for Argus but the also reprints from Acc journal. wrong Reid! Bath, rest, dinner. Sat in sitting room of cabin - looked up flowers. Brought down avalanche lilies etc from pass, & the fragrant flower the goats like. An amateur botanist here, has room in same cabin, says it is Jacobs ladder. He has been in all western mts, also New Zealand. Says Hemitage is

dirty + third class - His name Lefevre
Sunday July 2nd. To go to
Many Glacier for lunch - weather
has been magnificent - Left about
10:30 am. Took some two hours
slow driving, several stops for
pictures - about 57 miles I think
Parking place high up hill above
pony hitching post - Lunch
quite nice + B N G + Sig like it very
much - Engaged 208 + 210
for Sat next for several weeks.
Was told man was asking for me.
Guy guide in C.R. + bore headed
buckskin coat - Must have been
Charlie Hunter - Phoned Two Med.
to tell him to stay if he came.
Tried to get hazy filter for Argus
camera as one sent me is for
indoor movies + am sending it
back. No luck - Looked for athletic

car on way to Two Med. Ran down to Entrance to ask for filler & got our laundry thru. Then home. Charley phoned about 7:30 pm from St. Mary's. Thinks of going to camp. Asked him to "marry" next Sunday. Read Time on bed.
Monday July 3rd Rainy so gave up projected walk to Cut bank or Dawson Pass or Upper Med. Lake. Miss Robinson went any way up to Lookout Point somewhere. Cancelled lunch & think of going to Entrance to get car greased and hair washed. Hear there is a rodeo there so Sig & I may go after lunch. Did odd jobs & wrote up diary. Left right after lunch for Entrance. taking car to be greased & garage boy driving us out to rodeo on open ground 1½ mile approx from village

Rodeo at Entrance

Hair dresser at rodeo + shop closed. Right up against fence so took pictures even if cloudy - Calf roping steer decorating, broncs riding, steer cow + calf riding bareback - Good show. Man brought car back + I took him to garage but show was over + Sig walking out - very dusty when cars began to move. ~~Could get a large picture in Entrance~~ We sit in our cabin sitting room in evenings with nice fire + read Time, write + sally together -

Tuesday July 4th Little flags at breakfast table proclaim the 4th July. Haven't been in U.S.A. on this day since 1935 when was in glacier but too walked around lake to Twin Falls + on to upper medicine, took in launch landing on return - Met several fishing parties one man + boy who

Trip to slopes of Mt. Henry.

didnt like bushwhacking + wanted father to take him back to boat. Had to walk fast to get back at 1:15 pm for lunch. Then Sig + I back to Rodeo where I took more pictures but sun was out this time. Mailed one film to Chicago at Entrance + got some more out of big bag. Then back to Twdnes. Dont chat much with chips company except occasionally with Mr. Lefevre the amateur botanist, said to be retired broker, gets N+ Time + Chicago Tribune + is probably French.

Wednesday July 5th. Still cloudy go with Ranger Naturalist Rettenington + party up onto slopes of Mt. Henry looking at flowers trees, geology etc. Lupin is pea family with leaves in whorl. Only pea which has them so. Mr + Mrs Brown, he with large Bergen

Slopes of Mt. Henry & Dawson Pass.

drop behind & I went on after Hetherington called it a day. Took a few degree shots of flowers. when sun came out. After lunch we went in car up trail again & walked about a bit looking at flowers, then around camp ground where we saw jack rabbit watched fishermen at bridge, then down towards junction looking for lupin & bunchwort. Answered mail after supper & to bed early.

Thursday July 6th Sig lighted bathroom stove early & I had breakfast & off at 8:10 am for Dawson Pass. Two trail workers ahead of me - 10 min to bridge, 1 hr. more to fork. 12 noon on pass. very windy - blue sky & clouds alternate - ate in spruce trees below pass - Saw two men on trail

supposing them the trail wouldn't
Then down snow bands on right
side of valley (coming down) where
avalanche snow almost covered
creek for some distance.
Rain; skirted around cliffs &
down on edge of snow, then brush-
whacked on deer trail to main
trail. Besides very wet & so was
I. Two men passed on trail
just before I rejoined it & found
them to be Ranger Ludlum (?) &
a Mr. Allen who is going late to
Jasper. Had been to pass. Came
down with them. Ranger carrying
stone for geology purposes leaving
it at branch of trail. Fast pace
set so I feel behind & got in at
3:30 pm. Mother ate mushroom
soup & doesn't feel so good. Sig
went on back up Mt. Henry trail

to appistoki Falls. (named for a person) in my walking boots which she liked - A Mrs. ~~Allen~~ Irvin here from Calgary with family of 4, youngest little girl 4 yrs old Carol who is a skating champion. Mrs. Irwin knows Mrs. Simpson, said Simpsons were to skate for King + Queen. Chief Justice Stone + wife here + were initiated into Blackfeet tribe at Entrance

Friday July 7th Sig walked to Rockwell Falls with Ranger - naturalist + party. Mother + I to Entrance to check bags to "Many" Bought Trive + pen Ringe (Scout) flower postals etc. Walked into Trick Falls on way home. Took pictures Latish for lunch. Sig takes boot trip at 3pm. I up Cutbank Pass valley called Dry Fork - burnt timber, exposed: big thunderstorm at head of valley is returned - no rain. Sat on bridge

at far end of camp ground, watching small fry jumping in creek & listening to birds - saw warblers high up in tallest spruce trees greyish hood, yellow breast - are they Macgillivray warblers? white crowned sparrows etc. Read Time in eve.
Deer ate salt in garden at dinner time.

Saturday, July 8th - Beautiful cloudless day. Little Carol Irwin 4 yr. skater from Calgary say "gosh its a perfect day. no wind, no clouds no nothin" Sig called me at 6 am dawn for picture of lake with reflections but had-nt slept too well & didnt get up. Got up about 7 am & decided to go to Aster Park before lunch - up to Aster Creek on trail, then sev. blazes at start of faint trail which soon ran out. Nice little falls & trout(?) pools. Two forks above, followed left then cut over to right one which is

ruined by avalanche broken trees; messy.
So came back - Then up to open
alps - Photo of old wind swept tree
alone on slope - Then cut down
cliffs - easy slope - with brakes & alders.
hit trail at meadows - Flies bad all
day - small horse fly type, also
bull dogs - guide (who wears glasses)
& party of three galloped past.
Packed after lunch & left at 3:10
for "Many" Parked car over hill while
Mother & Sig got bags up - Room 208
Sig. has 210. Unpack & settle.
Dining room very hot with sun
beating down on windows towards lake
Cooled off as sun went down at
7:50 PM. In car afterwards to show
Mother & Sig camp ground & cabins
Then sat on porch with nice breeze
effects. Talk w. Ranger Dale about
his study of mt. sheep near

Granite Park - Pitched tent there & made list of plants they eat - Ranger Dyson brings more about climbing he says - Cute feels bad when Sig rubs her - Pain in back beneath shoulder blades & sickish when legs are rubbed, head bad again - Sig in night once & went with her.

Sunday July 9th Cute has breakfast up & I ate alone 3 big pieces of French toast with lots of fry on it - Sig down about 9 - In room when bell boy announces "Priscilla Creek" is down stairs - Charlie in light tan shirt, dark tie & nice tan jacket store shoes - Talk in lobby & then walk up to Lake Josephine - very pretty. discuss Banff, Boyces etc - He will get field crops in before going to camp come second week perhaps - wants car there too - Dinner at hotel wh.

he enjoyed very much. Then drove in car up to camp ground etc. & he left about 3:30 saying it was 130 miles but worth it - Has house-keeper "miss good" whom he says is very efficient & if she wasn't efficient, she wouldn't be his house-keeper. Milks cow when he is away. Has lots of chickens Rhode Island Reds - bought at 9¢ a piece to eat up wheat leavings & will sell them for 20¢ a lb. 4½ lbs per chicken. Mother in bed all day & sleeping now at 5 pm.

Monday July 10 - Started out with Rangers' party - Dr. Dyson his name & has been on top of most of peaks "& hasn't fallen off yet." Got out on lawn where he talked of the five layers of stone formations of these mts! Then talked to him about Mt. Cleveland

which we've decided not to climb with Polly & Kay - its 6000 ft of bush-whacking unless you sleep out on Indian Pass. Charlie Hunter said to go from goat Haunt for 4 miles to road camp, then trail goes up rt. two miles to meadow where we could camp, returning to goat Haunt after climb. Left Nanga & party to stroll & went towards grinnell Lake & glacier up on glacier trail for view but turned back on account of time - Then to grinnell Lake & out over to Pegan trail & home - Hot, buggy, in fact awfully hot. In room most of afternoon on bed & Sig went to Lake Josephine - Polly & Kay arrived late after - in Swift Water cabins - Dinner with them at 7:30 & on porch upstairs afterwards - nice breeze & mother there too. Decide

To Crossley Lakes.

to go to Crossley Lakes camp, layover there, then over ahern Pass to Granite Park, back here on Friday.

Tuesday July 11. Left for Crossley Lake camp via Flattop wall. Heard man was lost up there, didn't return last night as expected & Rangers & CCC were out looking for him. Boys in two's & three's pass on at fast pace on trail. Pass Iceberg Lake trail. orange & wade at lake at foot of wall. Then to tunnel wh. goes through mt 200 feet below summit - some 100 yds through. Ranger & CCC's there took pictures of us, tunnel & them. Then through tunnel & down Spectacle trail cut out of side of rock wall. Met ranger & lost man on trail. He had gone too far & finally went to Crossley thinking he could phone a

his wife. No phone there & Ranger's cabin has only one way radio. He came in at 8:30, 9-10 tired exhausted, all in - the story grew - Had tried to return by Ahern Pass had swum in three or four lakes. had etc etc. Sort of tired & pale looking. We looked over Ahern Pass & decided we would have no trouble - up snow, shale ledges then snow - green half way up & shale over rocks - Had glasses with us, also rope - Down valley with Lake Elizabeth below us where two men fished - or were they moose? Stop & Dawn Mist falls & under tree further down for short hard rain Met two trail workers who asked if we were party who wanted to climb Mt. Cleveland - In camp when we found Mr. Allen & Judge

Lewis of Wash. D.C. who came at Two Medicine - no other guests. our times on trip: Start 8. am. orange at lake 10:30-11; summit by tunnel 12; Lunch 1-2 by stream fork of trail to ahern 2:55; Dawn Mist Falls 3:25-35 Rain 3:45-55. Camp 4:50. Camp fire - outfit grace garland (head) & a cook & a laundress all school teachers from Minneapolis & all friends before - & Michael a CCC boy Judge Lewis life of the party. High wind came up in eve & got higher! flapping banging all night so no one slept. Beautiful night too with brilliant stars - Thought of going outside to sleep (Lewis did) & took stool at 4 am as it was getting light - Wind high but not bad outside Tents were worst.

Layover at Crossley

Wednesday July 12. No one had slept & all felt exhausted. Decided to go towards but not to Indian Pass - Allen & Lewis left - first on foot, latter on horse with guide named Linc from goat Haunt from Many glacier - Allen took letter over to Mother which she got - Started late up trail, forgot coffee so Kay went back, then found we had no sugar so Polly went back. At last got going - went up as far as good view of water falls, ate lunch & cooked coffee on trail, then down to Wash board falls (well named - a curious formation. Then to meadows on lake with breeze for a nap which flies & skeets disturbed - Camp at fine Michail had camp fire on

Ahern Pass to granite.

shore of lake so had to go down but turned in early for a very quiet, restful night.

Thursday. July ~~14~~ 13 - Pass Lake Eliz & on to Helen - all named for girls here - Josephine, Eliz. Helen Sire! Had to ford stream at end of lake, Polly & Kay at lake itself - My feet already wet as I waded instead of crossing on log at last stream. So ate. & cooked coffee - put on dry socks. Then off around lake & I got in alders for hot tussel for some time Polly & Kay escaped most of it. by going back. Then we went higher up, side hill gouging & scrambling over ledges - Goat trails part of way. Not in good trim yet for climbing - walking is different! Hit trail - man made

Ahern Pass to granite

just as we hit shale & needed it most. Drank at most welcome stream. Looked up on snow from below & saw boulder then 6s & put up glasses second one appeared & I found two? men up on shale. Finally went up onto pass. We shouted but wind was wrong. After we hit trail we thought they might be trail workers, but they probably were not. Up snow below pass, with rope & Polly Riding steps. not steep at all. Heard afterwards that horses used to be brought over that way but last time 5 head were lost. Five miles by trail to granite Park chalet. which we reached just before a tremendous thunder storm. Tourists & guides about camp

Return to "Many"

fire in front of chalet watching lightning wh. was spectacular. One shot set fire to ridge beyond according to guide there - Three boys riding the reg. trip around the park. Had room off balcony & got fine view of storm from there after good dinner - To bed early but noise downstairs where they played bridge & boys talking afterwards kept us awake till late. Kay up & about to feed food to put her to sleep. The next day she wanted some to keep her awake - So we teased her about it.

Friday July 14th. over Sergo water pass to "Many" woman running chalet thinks she would love to be with us - all think us intrepid explorers to our arms

ment. Easy trip back - timber burnt & badly ruined by fire in 1936. Lunch on stream just above tourist camp. Then to hotel. Mother better, pack wash. rest. etc. Polly & Kay for dinner & on balcony later. which Mother is enjoying. She has another on the other side to use in afternoon when sun is very hot on our side.

Saturday July ~~14~~ 15. Left for Waterton, where I had my hair cut, Calgary (Stampede's last day) where we did not stop & Banff which we reached about 6:30 stopping downtown & Club-house about ½ pm for dinner In Polly's car with all our camp baggage leaving mine in garage. at "Many" Lunch near river under tree off road (lucky)

Banff.

Stopped a minute at Charley's about 11:30 - He thinks crops will be ready & he wont get to camp - Mrs. Lyall. Mrs. Sadler Henry Kingman, Dr. MacPherson & some 15 there. Heine Kingman in Banff hospital with mumps so Henry & Woody are waiting before coming into camp. Down town after supper & saw Harmons Jack Whyte, Stockand, etc. Temple Lodge is running 1 1/2 miles below half way camp in Ptarmigan. Cliff White there, accommodations for perhaps 16 people. Cliff running Skoki too. Jim Boyce has horses only. Is reached by auto, sleigh in winter

Sunday July 16. Left in Polly's car for Leanchoil where we lunched with coffee provided

Into camp.

Base camp at bridge - Rocky Mt. car & Ralph Rinks truck up 12 miles to wardens cabin then 10 mile walk in. Packs overtook us before we reached camp & boys came in tents before supper was over. Eleven of us in party. yesterdays party got stuck on road by car slipping off (our car used chains) & some didnt get in until 11 pm. & no sleeping bags Good crowd in camp but Sampson, Sibbald, Waterman, Waites all absent. Waites & Helen at Club-house - He was ill this winter - great disappointment to him. Eric Brooks & Vallance in charge.

Monday July 17. Climb of Hanbury - Started after

Traverse of Hanbury.

regular breakfast - 14 people led by Ernest, MacPherson & Polly, went up to glacier intending to climb ridge from there - no go! So around mountain hunting route. Roped up with Polly leading, Kay & man who didn't think we could hold his 180 lbs. He turned out to be "Beck" Howorth friend of Marg. Schneelbacker, who gives first aid instruction to skiers in N.Y. He was very careful but managed to fall off at one spot when Kay was moving, but she held him as he slid down some 15 feet: Polly & I belaying from above. We were last rope & had to wait because of stones three difficult pitches which

Traverse of Haubury

Polly negotiated very well. One over slabs, second up mossy crack - with fair hand holds to left but very steep. Third one long step where everything was loose. Made lower summit about 2:30-3 then easy to col & up highest peak. Some fine peaks to Haubury, only lowest 2 visible from camp. Camp not visible from summit. Cairn on top 45 minutes or more & left by different route as we came up at 4 pm. Some worries on trip & slow on rocks. Down to col & then over ledges with shale & snow on back side - Long couloir with oval - ended snow made descent easy & fairly quick - met up with whole party on main

creek (Martins) goats going over pass as we came down. Ernest was close to them above a waterfall. Then down moose trail on proper right bank & camp at 7:40 pm. Expected easy day - Probably first traverse & first ascent from glacier side. Edward Jerry w. the Frasers went up Martins Creek.

Tuesday July 19. Rest day in camp. Most people helped pack camps up onto snow field below Ennis somewhere. Judged photoes w. Block & Muriel Eyland - Vallance acting ex-officio. Bathed, washed hair - Told about trip to Ice River in 1933.

Wednesday July ~~20~~ 19. Nine of us start for high camp.

En route to High Camp

led by Ernest. Weather bad
Stopped at last tree & built
fire where we waited 3 hours.
Four men, inc. Williams, Fritz, Mitchell
went over pass to Leanchoil so
went on after packing some of
our food up. Rudolph & Andrew
Kramer w. party are at High Camp
Party wh. started from camp for
Mt. Ennis came down, reported
others in quandary but wanted
to stay up & climb - Left food
& my sleeping bag under
tree & finally returned soaked
to camp inc contents of ruck-
sack. Larry Logan. Beck~~worth H.~~ Howarth
& another man went further towards
Ennis & report strange snow
& ice formations by wind there.
on glacier. Dr. Conant & Dr.
Laird came into camp.

Several parties have tried
9 1., our "tepee peak" but only
made subsidiary peaks or ridges
as they go straight up from
camp. Has several subsidiary
peaks like Hanbury. Several
more have gone up garnet
by circuitous routes. Goodwin
& Chancellor are getting snowed
on every day. Barometer has
been going down steadily since
we arrived in camp. Now looks
like real rain. Hope camp doesn't
get rained out. Eric & Sid worried.
Have been put on climbing Com.
with older members not too
active climbers. No badge
climb available. Will try
peak at head of Martins
Creek to see if it is badge
caliber - Heave & Polly to go

Rain.

Roger in camp with new wife & "han" his sister both very nice. Aletta in our tent having come in Monday. Will go to High camp tomorrow if clear - probably won't be.

Thursday July 20. Reported very clear at 4 am. Polly Roger. Caufield, Curry started anyway but all other trips off. Expect party back from High camp & when weather clears, Ernest suggests we take whole camp up Vans from here. Mist way down intermittent rain. Wrote up diary, dried socks & boots. Bridge, checkers in tea tent. in various groups. Eric Brooks not so well as Vallance takes camp fire - Rangers head

Langford here. Mrs. Munday
& Henry Kingman & son Woody
came in. Rocky Mt. driver
disappeared at Field & so Henrys
driver "Bruce" took car & brought
them in. Raining all day. Party
from High Camps came in, not
having started to climb anything.
Some unwilling to go to High camps
even in rain so party is made
up. I'm not going because am off,
sleeping bag is up on cliff & probably
wet, & can do Vaux easily from
here. Brooks to take party up G1.
this time I hope they go for the
summit instead of subsid. peaks.
Hear that the four who went over
pass to Hoodoo Creek didn't get in
till nine o'clock & were they wet!
Ernest thinks they went straight
down instead of keeping near

as possible to Chancellor & coming down shale slopes. Logan, Howorth & others went out disgusted

Friday July 22. Clearing and barometer going up. Party left for Vanx pond here - Another leaves for High camp after lunch, party on G. I. & Mrs. Munday leading on Garnet. Wash & bag. Hear from Langford that best sodalite is to be found one half mile up creek, which is just below rangers cabin, some five miles from here. Vein some 20 inches wide So he shows me as he eats late breakfast - walked down to old camp site - Big porky there, also gophers, one on every rocky. Beattie, Curry, & Forbes joined us. Saw Someone on Garnet - Henry Kniginan, Woodie & climb there with Mrs. Munday & novice who didn't

make it. Woodie reported like goat on cliffs. Q1. trip didn't get in till 11:30 - Kay on it, led by Eric Brooks. Vallance also out on Hanbury with movies & late. Roger ran climbing committee & Polly & 9 on Vaux to-morrow, Roger leading. "Martin's Peak" a badge climb & Ewart & MacPherson to do it. Woody Kenyon very cute as he gave account of his climb at campfire. Bulyea in charge but Roger got it up. Kay came in at 11:30 from Q1. & had good tale to tell. She got hit on head with rock, & Eileen Des Briseys slipped on hard scree. Polly let out fact we were getting up at 4:30 & Kay turned in.

Sat. July 22. Called at 5 am & off at 6:15. Roger leading - Party Mrs. Graham - Mary Graham, Dr Rolph

Jean Keane (Mrs. Roger) Dorothy Hay
Muriel Aylard. Jean MacDonald-
Polly had second rope. Reached
High camp at 10:15. with several
rests. Quite a path up there now.
Good photoes. Grape fruit at place
where cache + our fire was. Mrs. G.
slow + Mrs. Keane scared but we
got on easily if slowly. Party on
right ridge of Ennis as we crossed
glacier on tracks of yesterdays party.
Not far up so suppose they got late
start. Later saw them on sky line
little higher - Vans in cloud -
easy climb - grade easy - one
steeper place - Quite a nice ridge
at top but guides yesterday tram-
ped it down knocking off cornice
Ridge goes some distance + was
at right angles to route up. Clouds
cleared as we sat there near

cairn + we saw a railway trains in Kicking Horse valley! Heard whistles as we came upon summit. At first there, found record of Georgia + Ernest who came up west ridge how mostly snow but was not when they climbed it. Snow very low this year every where here. Dr. Roepke led down on Polly's suggestion. Snow is best possible condition - On top at 2:20 Start down at 3 pm. Saw Ennis party on same place on ridge - Thought we would contact them if possible so Rogers rope detoured towards cliffs on Ennis - Much shorter but couldn't hear - As we left + thought I heard Aletta say "well, do you think it will ever lead us out? Stopped for water at High Camp where Polly had lemons which she squeezed - Then down

cliffs slowly reaching camp at 7:45
It takes ½ hr. to stream, ½ hour
to first snow bank. Rudolph built
bridge over stream which was
highest we had; he also blazed
trail up Martin's Creek. Ennis
party will be on rocks tonight
Mrs. Graham wishes her son were
not with them & I don't blame her.
Murray Gibbon in camp with
Palenske. More cordial than
usual. Spoke at camp fire.
Sunday July 23. Expect to do
chores but am called into Executive
Com of club representing New York
Section. Discuss huts etc. all
morning. Kingman there & we're
both bored. Washed socks & clothes
right before & after lunch. High
Camps party in about 2:30 pm.
They got on top of Ennis at

10:30 pm travelled down Vaux-side ridge till 12:30 am & stopped for night - Fourteen people on 3 ropes led by Andy Kramer, Bob Cross & Bert Wiebrecht. Finally all were on one rope - Lots of belaying waiting, roping & unroping. All o.k. but Aletta got knocked down with stone, Wiebrecht lost his german camera, Mrs. W. her hat: etc. etc. Brought down some of high camp things - other party will bring down rest - Brought my bag down - It was dry even after being under brook in storm. Exec. meeting in afternoon - glacier Lake suggested for next year's camp - also Robson, Maligne, the last stated to be expensive - Annual meeting in evening - Aletta & I at front table as we were late. Dr. Rolfe

& I vied with each other seconding motions. Beattie had on little bow tie & saw me gesture about it which almost broke up his motion. Vote to invite 10 lady alpinists from London here next year but sentiment is against it. Some think it would be good adv. for camp, no one spoke against it however at annual meeting.

Monday July 24. Start for Zinc Creek camp about 2 pm. Kramers, Polly & Kay, Bea DeLacy, Helen Zillmer Miss Brett, Stan Antonberg (came with Roger Neave) Dr. Snow. Andy took "short cut" reccommended by Rudolph upstream - but then we couldn't cross stream & so bushwhacked up left bank to confluence with stream from basin bet. the two towers after crossing, we hunted trail for

sometime, bushwhacking up
right bank or on moose trails.
Most of girls had on shorts & it
wasn't so good - Polly changed
in bushes. Just as we were about
to give up hunting trail - Stan
found it higher up - Bushes thick
on either side but pretty good - met
Ray Yorke & other packer with
some six packs & Miss Shearer
who went for ride - Up side of creek
on trail bad for horses, the alternative
over a rock slide. Camp near
pine creek but on other fresh
water stream; two bell tents
cook tent & eating fly - Don
Campbell
a camp boy there - Quiet camp
fire that night up on hillside
where strange round rock moraine
covered with old dead wood from
avalanche - Speculated on origin

of rock, found later to be an old
mine. Mosquitoes bad. To climb
mine mt. tomorrow - Andrew
wanted me to take rope but Polly
said I didn't like to lead & he
asked Bea McNeil - Polly is
getting up at 4:30 to start
breakfast for early start.
Tuesday July 25 got off after
six am for col & mine mt. Easy
going along stream, small
amount of brushwhacking. Some
snow patches, then up couloirs
Andrew chose one, so I chose
another on account of rocks.
I got the easiest & soon reached
scree above. Dr. Snow very
slow. On ridge, there were more
goat tracks than I've ever seen.
A regular goat boulevard. Started
up ridge which is quite rotten

narrow in spots. Didn't rope for some time & only then because of Dr. S. & one or two others. Andrew took Snow, Aletta, Helen. Then Bea took Kay & Stan; Polly, Miss Brett & L. G. Slow progress & held up on account of rocks falling. Took diff route at times - then at one point, Polly went around & over pinnacle (Polly's Pinnacle) Miss Brett & I following with some misgivings. Came out on sharp ridge & I hammered in spectacular place as Snow & others took pictures. Then when we joined others, Snow was fainty & she stopped a long time heroing him with most of the tomato juice. Helen Gilmer later said she thought he was just scared to death as he ate

a bit of lunch. Kramers said it was only 50 feet or so to top (optimists, but we were near) & he showed go up. Progress from then on was very slow. On final ridge Andrew said he didn't want to lead rest of way, pinnacles, very rotten - not enough room for us to sit together, & we drew straws out on ridge. Top some 100 yds beyond but I thought on a diff mountain ridge. So we started down, I leading & getting rocks from above. Cut out traverse around rock which held us up on ascent, by going lower. Kay feet badly so she & Miss Beatt changed places. Then we evened up rope a bit by taking turns

Beck, too, as Bea's rope was tied on to Andrews by that time giving him seven people. Reached camp after bad slow trip down at about 7:30 pm. I got rock on arm & was a bit peeved about it as Aletta & Helen send down many too many & don't take them seriously enough. Peg Wiley, Miss Honeycroft a terrible giggler, Miss Rutherford (her sister in camp last year & they both trail ride) Gordon Gullion, & Dr. Conant in new party - Peggy has supper for us but all but me must go to Bear Camp that night. Have soup & start off. Letter to Andrew ask him to stay up, take new party up pine & do goodbyes day after. He decides not to.

stay as he had bad day & was tired. Sorry for them as they started off down trail. Rest of us go up to rock pile & camp fire Speculate again on its origin Dr. Conant interesting & nice. quiet & unassuming. Has woods Lollycoposp(?) for mosquitoes - He is leaving in morning for home & not climbing Thorneycroft disgusted at not getting climb on ynic Didnt see why it was said to be walk-up. To bed where I asked her not to smoke & she obediently went out to have a last cigarette.

Wednesday July 26. Peggy got up to get breakfast. Meant to help but was tired also dirty - Awakened by

voice asking for me. Demanding I come out & tell them how to climb Goodsir. Asked who they were & reply was that I would recognize them. Sounded more like Beattie than anyone I could think of. Didn't sound like Sterling Hendricks whom it actually was. My impression was one of rudeness or else they had drunk a lot. Didn't get up till later & then heard that Gibson, Hendricks Hall & Hans Fuhrer were on way to climb South tower from main camp. Ate up our food as this they said they had had breakfast. Fast. Also tasted other things & Henry drank the Klim. Started for col with Peg, Gordon, Rutherford, Thorney croft

decided to return to main camp - went up right side of creek where we came down last night, found sodalite mica & Gordon much interested. Quite hot - up same gully we came down last night - Gordon rolled rocks down hill great glee & 20 goats & 7 elk spading up & heard it from under cliffs & in meadow below. Polly took field glasses down by mistake last night so we saw no signs of the Chinbus or Goodsir. Gone camp about 2 pm, tea & 2 hour walk back to main camp. Met party of 14 bound for Pine camp & South Tower at Ice River

Ernest & Rudolph both there. Kingman told me Rex et party were much censored - an feeling "their oats" certainly & every one disgusted - Four of them took 12 lunches! Polly Bea, Helen, Mrs. Munday, Leave Beattie, Bloch-Hiller, DeBrisay Cross, in goodsir party. Take trail, not Rudolph's cut-off. Very hot up Ice River - In camp for Suppn. Polly told me on trail I was signed up with Kramers to do Martins Peak tomorrow. Chuck Kingman to go, & Dr. Goodrich but he backed out when he found it was sort of private party -

Thursday July 27. Up about 5 - to climb Martins Peak wh. is at head of Martins Creek valley & has

been made a badge climb because there is no other - I would think Ennis might be one but route seems to be in doubt. Found Major funning about eating tent because gibson came in late last night & left note to be called to climb Martins Peak. Went to find Aletta but missed her - when I returned everyone was at breakfast including Rex. He was cordial, shoke hands across table. I asked if who is it was so rudely awakened me at Zinc Creek. He seemed surprised - asked about Goodsir so I said "oh we traversed it!" He talked all through meal - stoney silence of most of others. Andrew told him he had no more room on his rope, Rex insisted he was climbing Martins & result was 2 girls, Thomeycroft & Hartley switched from g1. which Curry was taking out. Rex let

Andrew lead to col, then pushed him to ridge when we finally decided he was bound to lead so we would have better climb if we let him start ahead. Martins valley lovely - 3 hr. walk to col. Rex took 4 on his rope as it was longer - Aletta + I with Andrew. Rex pulled out line that Polly had given him, told Chuck it was only for experts - As he appealed to me, I said I had one, because I wasn't husky enough to carry heavier one! Followed goat to ridge where view of goodwins is magnificent - Then up long ridge more or less. Andrew cut some out + we fell in shortly behind others - many hand holds as work tilts right way + is broken but solid - up overhang which was like table top tilted Andrew pulled me up after I got leg over. One dippiest pitch near top

because footholds were narrow - one less difficult below it up crack & then one slidy step to left. Got up both easily but would lack confidence if leading. Sat on top for hour & a half I guess. Rex melted snow for water - Aletta sat apart & finally went to sleep. Shared fruit with bunch as we had 2 cans Then down Dorothy Hartley leading we waiting 30 minutes for 1st rope. at the hard pitch. I lead 2nd rope merely following Rex's. got too far down ridge & Andy saw it but was not sure - Had to traverse snow & scree gullies wh. he didnt like quite a discussion but route was o.k. really & came out better I think than mornings but was longer. Snow in best condition.

Down from col. saw 24 goats

on cliffs o shale about Stream wh. disappears at unusual spot into ground. Back to camp about 8:30. Our times: Left camp. 5:45 - at Col 8:55; Ridge 10:10 - 10:30. Top. 12:30 - 2 Down slab 2:20 Col 6:30 camp 8:30. Rex talked all through supper to giggles from Honeycroft. By the way, she is a lawyer, wants to settle some. where & practice, will try Vancouver. Used flag to a bull to some in camp. It is rumored Aylards cancelled pack trip because. Rex leads camp fire, tells of trip up Tiedeman (?) Too bad so many fine qualities are spoiled by arrogance & boasting plus riding rough shod over everyone.

Friday July 28. Rest day. Kay & Peggy Wiley & McCabe up Ennis led by Rex. Polly in from foodair S. Tower

but doesn't think it much of climb
3 ropes went & then was much broken
rock. Got in about 11:30 but Ernests
rope got in about 8. pm. Rested
& fussed around tent. Met Rex
& Mc Nab as Polly & I went to tea.
He talked so much I couldn't
stand it & tea tent emptied out
Asked Polly to take him in car to
Banff which she will do. Kay & Peggy
way up trail to come home leisurely.
Polly & I walked up. streams very
high & waterfalls full changing
valley head scenery considerably
over first week of camp. Kay en
joyed climb but they took route
to left of ours & angled over further
to left as it gets easier. Thinks
Rex didn't see our route, which isn't
easy to see; reports party weak &
did want to get home for tea!

Saturday July 29 - End of camp. Left with Henry Seigman, planning to get sodalite on way out. Langford said vein was ¼ mile up creek just below wardens cabin. Those at warden's cabin (Nicholson + daughter) say it is ¾ mile up Sodalite creek - Univ of Toronto sent for 2 tons will test for possible uses + grind some up too - Best pieces have zion in them + they just. Found some pieces at first creek, then I beat it up Sodalite, striking new blazes on poor trail, led to canyon where trail petered out. Diggings just above but time was up + none left to explore several other places. Chucked pockets full so could hardly travel. Met Kay on way back. others have gone on - ate hasty lunch at Ice River, then down trail. Saw sign Hinman

party on tree - year Betty Rawlings + C.N. were alone. Met pack train en route up valley again - got to bus road just in time 2:15. Polly getting anxious + shouted just as we got in hearing. She saved some grapefruit for us + then all piled in bus. Mrs. Munday + Rex with us in Polly's crowded car. Ice cream cones at field where we met Kunjmans. Then to Louise - Chris + Edw. both at golden. Ernest + Rudolph in Rocky's car wh. had to be pushed, + not in yet. Phoned Mrs. Tyrell who said Katie Gardiner was at chateau; so phoned her too. Ended by her treating us all to dinner at chateau in our disgracefully dirty trail cls. Delish dinner + did the whole work. Saw Violet Wilson, Mrs. Gilmore, Georgia Engelhardt. Katie did Fieldfield group; first of Prior PR.

Home by Aniskur but did not get chance at Mummery or Forbes. To club house in evening - wh. is full - In cabin Vermillion w. Betty Callan asleep in other bed.

Sunday July 30. up new highway which is open about a mile beyond Sask. bridge - Took Mrs. Munday & Katie; lunching at chateau on way. Chris still not in & to go to O'Hara w. Kingmans today. Saw Jim Boyce at station looking like old self in sombrero - Is running horses only at Skoki - Cliff White at new Temple Lodge - Tea at Simpsons Mumtahgah (?) Lodge on way home. To club house about 10 in evening. stopped for pictures, Peyto point etc. Marg. Simpson at lodge wh is most attractive - Mary in Banff hospital w. infection on wh. they operated

Monday July 31 - Dorothy Whyte has leave of absence from hotel & is in Vancouver. Fitz Nichols flew home as Mother was ill. Expects to return. Mac Gowens on trail ride. Have tenor singing there - seems to bust it out pretty much. Rented projector from Noble for $3.50 a day including screen. To Castle Mt for tea seeing Mr. & Mrs. Pollard. Chip munks still there. Movies in evening - Mrs. Wheeler & John there. Ran off 4 reels 1938.

Tuesday Aug 1. Polly & Kay climb Edith & have grand time Asked John Wheeler to go but grandpa wouldnt let him much to his disappointment. Returned projector in Jack Forbes car, walked w. him & Phil Munday to Grassi's Lookout - Saw

Canfield off to Vancouver - wrote Margie Haylehurst, also Ethel as she has been admitted to both Vassar & Wells & has chosen first. Is a waitress at Hotel Aberdeen, Longport. Got shoes & raincoat I left Dorothy White last year, from Betty Woods who is handling information this year. All packed ready to leave early. Caroline Hinman at Louise

Wed - Aug 2. Left Banff café at 6:20 Stopped at Charley Hunter's just after eating lunch. Caroline to come down for visit in Pincher Creek. Reached Many about 3 pm - repacking car at garage. Polly & Kay leave for Great Falls & Rapid City wh they meet Mrs. Pressott; then Cleveland by Monday am when they start work. Saw my Argus pictures before leaving Some are good. Mother O.K & Sig also

Thursday Aug 3. Annette to reach MacDonald on the 5th. Listed Argus pictures, put movies together 4 reels here - wrote diary. Sig starts Knitting me sox with wool I got at odd Crafts shop in Banff. Read Time, slept, bathed, dinner. Head Ranger Dyson talk on glaciers in evening; Jim Whilt (?) who wears a loud striped shirt, about grinnell glacier trip & recited poetry. Talked to Mr. Tibbitt who runs -X6 Ranch about rodeos, Indians etc.

Friday Aug 4. Mother has neuritis pain in back & stays in room. Started to go to Glacier Park Hotel to get shots from truck Sears Eastman Kodak Co. car in front of hotel here. So waited for owner to ask where there was

a 16 mm projector - none here but he had two in car so offered to show them right away here. Took him to Sig's room & we rigged up a sheet & put them off - most rodeo shots are over-exposed. Man was John D. Hart E. K. Co. Rochester; would take nothing for his trouble. Then to Eastlake where I lunched - three other women put at table but none of us wanted to converse. Then to Browning to get boots fixed - a little brown dusty town in a brown dust colored plain. Man will mail boots to Babb. Got good humors at ice cream place & drove back to Many - pleasant drive - one way traffic where they are playing with the gravel pushing it from

one side of the road to'ther. Good surface where they have finished better than when we came up to Mary three weeks ago.
Sat Aug 5 - Took trip to Grinnell glacier on pony back. Had a nice horse who stepped right along & I led most of way. Six in party with guide in buckskin coat who wears loud shirt & recites verses name Jim Whilt. Bought his books tonight - verses & stories. Stop at Grinnell Lake, then to glacier - Goat on cliffs immediately above trail quite near - Went on ice Jim roping several of party to look over crevasse - Talked, joked, told stories & yarns. Coffee for lunch surrounded by very tame gophers who ran off with my sandwiches when I was at fire toasting one.

Took pictures - windy day, much smoke, some clouds, little sun for pictures but pleasant riding. Rod all the way home - dusty trail - went to Babb post office to get boots from Browning but they didn't come - Arranged for Mother to see notary - Mr. Stronson who keeps store & whose mother(?) is post mistress - tomorrow - He is going next week to great Falls - probably to fair there - went to lecture on deer elk-etc with pictures -

Sun Aug 6 - went to Babb to get notary Stronson But he was gone to Waterton & said he would come up to hotel around 7:30 - 8 Raining - good for smoke - Expect Annette & Sam today - Message came that they would be here

for dinner - Notary came at 4:30
A & S. about 6:00 - for dinner -
Seem well & cheerful - at Swift-
current cabins across lake. Miss
Weakley passed on July 29th -
at Cathcart Home - Miss Thornton
with E. West's cousin Laurie at
Bryn Mawr. Edith writes things
go well at Merion -

Monday Aug 7. went to Babb
w. Cute to get boots resoled at Browning
& mailed to Babb. Sig off for day to
Iceberg Lake with my boots & lunch. Took
pictures of tickle grass & asters & goldenrod
by road - went to A & S.'s to fish at
Josephines Lake - one strike for me &
1 for Annette, nothing else. Sam took
boat on Josephine, A & I trolling & fly
fishing - I with bacon added. No fish
Cold as cloudless day has blown up
some clouds & there is little Sun

Too much wind for fish - Tried Swift current Lake about 5:30 at some likely looking rocks where minor had it three big ones were taken yesterday - A. tired & so went home 9 to late dinner in camp clothes at hotel - Lecture on glacier Park in winter. Evening ride to Ptarmigan falls tonight - 12 going - lots of cowboys and Mrs. Getty's sister - clear, cold & moonless night but latter may come up later.

Tuesday Aug 8. Rainish day but A & S. came over & we went out with lunch about 11:15. Fished along Swift current Lake & saw one eight? inch fish below rock; then on to Josephine where I went ahead & fished miles. Saw one strike or two. Then to grinnell where we cooked lunch & I used new

toasting for R Annette gave me
Some fishermen were at far
end of lake. We didnt fish there
as it was sort of raining & Sam
was not dressed for much wetness.
Start home A & S. going right
back. I fished Josephine from
east shore which is mostly shallow
then followed outlet to Swiftcurrent
which I found besides backwater
swamps, one sweet pool in the
stream where one could let out fly
with current - no fish however.
Then home - attended lectures by
Rangers.

Wed. Aug 9. Annette took B & G.
over to cabin for some time in am.
Read Comm & C.J. reports - A & S
here for lunch. I to appekunny
Falls - climbing cliffs to ~~right~~ left
Beautiful valley & determine to return

A & S. for dinner & lecture in eve.
They much amused at Jim Willts'
& his usual speech!
Thurs. Aug 10. Annette came in
to say goodbye - they leaving for
Priest Lake, Idaho. Mother Sig & I
to Prince of Wales in Waterton for lunch
very windy - Phoned Caroline Hunnan
who has come down to Pincher Creek
from Jasper & Lake Louise - visiting
Charlie for a week - will go up on Saturday
overnight. Ran around town - saw many
bathers - Stiff breeze on lake - Mother
not been on hotel - Photo 2 deer & 3 fawns
in woods below lake on way home.
Friday Aug 11. Started about 8:30 up
Appekunny draw taking pictures
of falls & flowers - Trail fair to right
& Sig took it once. I went up cliffs to
right of falls by couloir - up into higher
basin ~~below~~ by cliffs on left. guide

book of Elrod's says you can go up on right but oh. be a mountaineer to attempt it! Strange white deposit along stream for several hundred yards looks like lime deposit at distance but like white flakes of growth, near to. Lake almost half empty - big mud flats around edge - Second lake quite pretty - Lunch there with fire - no game - felt badly - thought it might be bad water but guess it was the hot day - fine for pictures, little smoke. Up to col bet. Alteyn & Henkle (?) then seeing shale slope down other side almost to road, went up shale to top of alteyn - On top at 3:15 & at 5 pm was drinking pineapple ice cream soda at hotel. Had to walk down hot road to get car at end of walk & enjoyed drink of water at drinking fountain cavern on

road at junction. In evening went to lecture by Ranger Dyson; woman fainted & screamed as she was carried out. Sig went to see if she could help. Was still on chairs outside when talk was over. Butcher here, Mickey Rieber has Keystone 750 watt projector & is showing my 550 feet of new movies at 9 pm. Also showed one of his own. Audience of waitresses, bell boys etc. Fine display of Northern Lights with some red, green & purple streamers pointing up to zenith about 9:45 pm. Lasted 15 or 20 minutes. Color mostly east & west, is that usual?

Sat Aug 12. Left about 9 am for Charleys Hunter's. Arrived at 11:15. Much shorter distance than I expected. Caroline there. Stout German descent — woman Miss Good his housekeeper. Looks Pa Dutch & had

grandfather who was, Charley was plowing but had pain which laid him out so coach as we ate good plain meat, vegetables potato meal with miss good. Has six horses, one cow. many Rhode Island Red chickens - Cow very British - House, clean nice bare of luxuries + gadgets - Charley bought 12 sacks of crushed oats for horses + I went to town to get the second load - Wheat fields lovely color in aft. light. Walked to little lagoon with Caroline. Sun hot + stiff wind warm. Talk of people all weather + crops - Miss Schoenig + daughter Audrey called. Donald in New York studying embalming - Read letter all about it from him. Mrs. S. vivacious + attractive - fond of Caroline.

Supper early & then I took Miss Good & Caroline to town (Pemidji Creek) for groceries, errands etc. Lots of men hanging around, neat stores but one street and a little over, wide; little monumental park well kept & watered - a quiet oasis in a dingy, warm, rank country town. Charley to bed early feeling no better - thinks its appendicitis. Caroline & I walked to lagoon & then on to coulee beyond wheat fields till dark - then back about 9:30. Went through pitch dark barn to avoid scaring & being scared by cow who is skittish & in yard. To bed in east room, comfortable bed, bureau, wash stand, chair no ornaments. Use out house but have place for bath room but none ever got put in - now used as store room.

Pincher Creek

Sun Aug 13. Got up about 7 and Restless night probably why because it was in strange place. Glary & wind & sun gave me headache. But not bad. Charley is better & projected trip to Waterton is off by mutual consent. After breakfast Caroline weeds garden & I helped some pulling out the spectacular ones - She has done it each day & is just finished - After dinner we looked at Charley's pictures of South America & some of west. He still had pain. Leave about 3 pm bringing Caroline to Manny for a week. Met Canadian Mappi cop at Waterton gate who knew Chris & my name - His name is Giddie - Talked some time. Arrived Manny & got Caroline room on our floor all O.K. Went to lecture in evening

Motor to Logan Pass & MacDonald.

Mon Aug 14. Drove over Logan Pass & lunched at Lake MacDonald - very spectacular & fine drive on fine day - some smoke haze. Engaged rooms for tues day week. till Sunday here Mother & Sig (at least) leave for east. Met Sig's friend who taught at P.N. & friend - Two bears on road near hotel after leaving very tame - took movie as he came down road - but he was not scared of horn - Lecture again in evening on glaciers - Have heard them talk on sheep, goats, elk, deer, trees, glaciers, erosion. Jim whilt always uses same speech verbatim almost -

Tues. Aug 15 - Caroline & Sig off at 8am for Grinnell glacier - Mother & I motored to St. Mary's & back for ride. Pictures came & did chores in room. Wrote diary - Hikers back after

Motor to Entrance + Two Med.

good trip - Lunch on glacier + coffee
b. Jim Whitts party later. I met
them on trail. On porch in evening
Wed. Aug 16. Motored to Entrance to
get reservations east. Had hair
cut, washed, marcelled. Lunch at Two
Med. Lake - Every one there same as
before. C.H. to Trick Falls. Then to G.P.
St'a for auto ticket home; to hotel for
Mother's reservations Aug 28 w. Sig.
I am motoring two weeks with Carolan
to Rainier + Crater Lake. Have asked
Charlie to go too - doubt if he will but he can
Reservations home for car 3 pm - Sept.
12 - I leave 6:53 pm. Empire Builder
Several days ago 2 boys (employees)
were 6 miles from Sun Camp. Came
on bears on trail - one clawed +
at Sun camp - Many stories about
how it happened - was said not to
have fed or done anything to it

not known whether it was grizzly or black. Men in office think boys must have done something. Curtis Box & wife in dining room for dinner - Goulant find them in eve.

Thursday Aug 17. Iceberg & Ptarmigan Lakes. Caroline & I start about 9 am from Swiftwater Cabins go to Iceberg, then to Ptarmigan to fish - Man there very talkative from Cal. came back to see us fish His companion was at Iceberg Lake & asked same questions as first one whom we met on trail en route to Ptarmigan - Late for lunch but fished any way, getting small ~~out~~ trout on first cast - Then a lull & caught a second some time later on bacon; first was on small black fly. Caroline caught one when I stopped to start fire & make coffee - Fried trout for lunch. Very good but two weren't cooked

enough - Fished till 5:30 +
Caught one 12½ inches long. Others
all small - just seven inches
+ saw us other big ones - Could
not keep small ones off hook. Put
back at least six, lost a number
of others by letting them get off,
+ avoided as many as possible.
Best place between rocks on left.
Only small ones on opposite
side. Caroline had no luck
perhaps because she didn't use
leader & didn't like her fly
but she tried all she had.
Brought the big one + 3 babies
home in lunch box. Got in
for late dinner 7:40 - Martin + Sig
still at table + will have fish for
breakfast tomorrow - Mr. Allen who was
at two lied + Crosby came in - Has
been on Trail Ride + Hike up in Canada

Fri. Aug 18. Were to motor to Cutbank Chalets but Mother hears from Kitty Glendenning Vanbyck that she may come w. daughter for lunch today or tomorrow so stay in. walked to Josephine & then up Outlet-inlet very quiet restful there - Had eye ache plus headache too. Kitty didn't come so after lunch, we did go to Cutbank Chalets. a fishing place very small main cabin & then bedroom cabins about. Near stream but little view. Poor road in but only a few center bumps. Passed large flock of sheep along road. Told they belonged to Indians - were outside park - bleating & smelly.
Sat. Aug 19. Caroline & I to Cracker Lake - Mother to entertain Kitty Glendenning who came but

daughter didn't but went to rodeo instead - She told of the ranch & of another ranch which was high but because Sister & Rusty Doll had been there summer before - C & I up to lake in about 3 hrs - first through burn from hotel to switch-backs seen from auto road - then through forest of large trees also with unseen canyon below. Finally out of big timber along ambling trail up & down sides of coulees to beautiful lake - real blue - Lovely clear stream with pot hole pools very enticing - Large red rock on left side - fine place, hilly pot. & John at foot. I explore but C. H. straight ahead on trail to end of lake. guide & horseback party ahead, but went on around lake before we approached - old Crocker mine

at head of lake - Said to be copper (?)
to be called "Cracker-jack" & man
who built it, dropped dead the day
he heard his backers would back
him no longer - A huge "con-
centrator" (Elrod's guide book term)
three at end of lake, with two
huge wheels, several filled in
shafts and many heavy planks - We
ate lunch with coffee by lake side -
sun very hot & glary but air cool.
I built shade for my head out of
planks & we stayed some two hours.
C. in for bath, I to wade - Then I left
for trail around lake, C.H to explore red
rock. Took picture from old cabin (?) ruin
across lake, then on till squeals told me
of 3 men bathers across lake below trail.
Waited till they had their bath, then on.
Shouted to warn them, & as they scram-
bled into their clothes, called out

"Brrrr. its cold" One answered "Its terrible". Then all made for trail above down which C.H. was proceeding. Didn't see C.H. again till hours later Started down enticing stream, singing to my self & very happy - easy grassy meadows, purest clear stream, red rocks, took picture just for color, sun behind me - Down stream to start of willows where coulee led up to trail. watched for C.H. as I climbed up & lay in shade of bushes for 20 min. by watch waiting. Kept eye on stream below & listened for gophers warnings of her approach. Nothing doing so that she might have already passed. went down trail leisurely but suddenly tired of sun & glare & beat it down into timber - watched trail ahead & behind - no Caroline - Stream lovely & old trail led down along it.

would miss Caroline if I went down or it so struck to horse trail. Reached half way point, at two bridges just above fine place + rest place before 4 pm so knew she wasn't ahead. Many tracks on trail as the three men were ahead - one had nails, two, bars across heal. his tracks smaller than mine but one of men must be a boy. Did not see them closer. waited till five o'clock at bridge then as sun was gone ambled up trail to warm up. one point has good view of trail above so sat there till chilly again + then up trail. Finally thot I might as well go all the way as long as I was so far up so went to last hill above lake - completely deserted so as it was 6 pm beat it for home. Down switch backs + across burnt

timber flats when saw 3 horsemen led by ranger, then C. H. & guide wrangling me on horseback! walked in with ranger who was one who photoed us at Ptarmigan tunnel when Kay, Polly & I went to Crossley. Has pictures of us. C. H. had dusted out of valley ahead of me, waited a while, finally came home at 5:30. As I didn't come, she got worried, horses, ranger & guide & started back. Ranger said it was a short search anyway. Charley Hunter says most search parties start out too soon.

Sun. Aug 20. Started for Waterton to meet Charley. At Kilkmore Lodge 15 min late at 9:45. Miss good with Charley, food for lunch & supper. Soon off past Cameron Falls to Lake, Lakes & pass. Along shady easily

graded trail, but long. Passed & were passed by three little boys w. heavy packs evidently out for camping trips all by themselves. Also passed by 11 horsebackers mostly girls. Lunch on alplands below lakes, where Charley made fire for tea & coffee in midst of small spruce with fierce wind & stream 50 yds away. Then on to lakes but I reneged on pass as being too far. Many fishing parties at lake. Signs of goat, sheep, deer & saw last them later. Sheep on skyline, goat beneath cliff deer on trail. Back to Waterton at 5:45 & picnicked on shore of lake - stiff wind wh. died down; Indian Squaw & children sitting there on rock by lake. Left at 7:20 for Mary; C.H. returning to Charley's for week, got in to Mary at 8:50 pm. after longish seeming drive in spite of baritone radioing from Calgary

Mon. Aug 21. Sig. off to Cracker Lake in aft. Spent am packing, writing etc. Mother + I to Babb in late afternoon, going around dump for bears (none), camps etc. Sig home about 7:30.

Tues. Aug 22. Drove over Logan Pass to MacDonald Hotel - alt 3100 ft. + we feel it - Fire started at St. Mary's junction apparently soon after we passed - almost got Hugh Black's cabins - said to have trapped some horses - burnt 75 acres before CCC got it out - Have 2 rooms + bath connected by sitting room with balcony for two overlooking lake - A tame deer here 2 yr old buck raised here - its mother died last year - causes much amusement + is good subject for photography - everyone getting their

picture taken petting its back.
Ranger lecture in lobby - on trees -
Big cedars form lobby of hotel.
Wed Aug 23. Went to Spurry glacier
on horseback - Fair white horse
guide nice boy named Ellis - Party
from Tamarack ranch 60 miles north
of Missoula went, 1 older man
3 boys - one the ranch owner -
man called them the "horse thieves"
& wife of corral-master was only
other member. Dusty trail thru
tall timber - Spurry Chalets
200 yds above trail on bluff -
shady location - then up over
alplands - tiny benches with
lakes, & separated by cliffs.
Big bldg near trail - which led
along bench to end & then back
on next - with some switchbacks
over shale. Left horses near

lunch place at lake & fire place against rock. Met there by Tyrolean guide - oldish, ice ax & rope, no edge nails - who took us up steps cut through rock & down to Spring glacier on other side. Took us down & around pointing out pts of interest mostly glacial mud! Then up ice & snow slope, too steep for party with cow boy boots or rubber soles. They got on pretty well considering - guide cut steps all the way. Back about 2 pm when we lunched - Then I went on down ahead of party to find goat - Was passed by Tyrolean - & found no goat, - on ledge probably asleep. Walked down as far as chalet & other girl rode on alone to chalet - didn't see her again - others caught up & we rode home - some trots & gallops

near end led by "horsethieves" -
quite dusty - Listened to ranger
on animals of park - mostly rodents.
Thurs. Aug 24. Drove down to Belton.
got booklet on Rainier f. Ranger
headquarters. Passed two hikers
who looked like appies w. heavy packs
entering Belton. Saw lots of cabins
etc. Have stiff neck & can hardly
turn it. Sig to Fish Lake in aft.
Made by beavers - met waitress on
trail & walked with her. Ranger
talked on glaciers.
Fri. Aug 25. Drove to Logan Pass
& walked from there. Asked for
lunch & was told it had to be ordered
night before but friendly head
waitress came to my rescue &
got me one. Walked to Hidden
Lake where ranger takes group.
then over little ridge to left

coming down on Logan Pass side, other side was steep bluff, then back over pass, beyond ridge to Hidden Lake side ▽ up to pass above it. Two goats on Mt. Reynolds (?), chased six out from bluffs above lake ▽ three more were under cliffs near snow banks beyond - Total 11. Ate lunch sketchily on shale slope, didn't feel hungry - Return after climbing second ridge above Hidden Lake by goat trail over shale slope making straight for Logan Pass. Saw "man" on summit of ridge after I came down, then "he" flew away! was it an eagle? At car again after eating cookies by stream on alpine side of pass. (hanging gardens on map). Down pass in one hour - Scared coyote crossed road in front of car, at steep rock

blasted turns of road. Storm came just as I came in to find Mother on balcony watching for me. House Keeper nailed our windows down during storm. Rain tacked again on trees.
Sat Aug 26. Mist down on lake but sun struggled out during morning. Deer under our balcony & usual photography proceeds. Hope rain will put out fires, & will down smoke haze anyway. Diary, Sat, baked. Mother's head not so good. After lunch went around lake road, Saw trail which John probably took the time he had the adventure with the bears. Senator Wheeler is said to have a place there. Passed number of bungalows, last one Kelley's Cabins when road narrowed to width of car & practically no turns - wonderful cedars

Back to Gl. Park Hotel

& Doug. fir forests - little underbrush, many windfalls - finally reached bungalow where it was marked "end of road. Then explored other road on left going west (after seeing Mac Donald Falls & beds & avalanche camp ground) found 2 beaver dams, finally watched 2 baby beavers & one adult swim all about stream - Then to Sprague camp ground west of hotel & home.

Sun Aug 27. Left Mac Donald for Glacier Park by way of Belton Scenic drive - near railway route up high pass wh. I thought the divide but divide is marked by statue of Stevens in field to left. Rock with stream flowing down it on very summit - Got to G.P. for lunch - Rooms 6.50 - rate on 300 floor most comfortable we've had - Repacked

B.H.G. leaves for home.

Mon Aug 28. Mother not too peppy stay in room + about hotel. Water here smells terribly of chlorine put in because Montreal is having epidemic of stomach trouble!! Got very good marcel - Downpour of rain 40 minutes before train time but stopped soon. Long wait at sta. as Empire Builder due at 6:53 was 20 min late, in 2 sections still. Ranch guests there from - 6 x + Jennings ranches, also Mrs Castle + Mrs MacGregor - Lottie rents horses to Mrs. C. + others - has place right across tracks - waited till train left but didn't get on. Then dinner at hotel, Dent Oggy + Priscilla a bear each - read Time - watched bulletins on war situation - To bed at 11 pm in 303 - + slept very soundly

Tues. Aug 29 Left at 8:40 with 2 suit cases, 1 duffle, rucksack. tent, sleeping bag, & cooking kit. Left trunk at hotel & checked yellow suit case & 1 duffle home. Mileage 4275 - at Charlies 4379 Arrived on dot of 12. C.H on binder & C.H. Shocking wheat all week. Has man there "Nevin". Dinner together, then off at 1:30 - Stopped in Pincher Creek to write & mail post cards - over Crowsnest pass passing town of Frank buried by rock slide in 1903. Big boulders 90 people, bank all covered, never dug out. Was mining town (coal? think) & mt was undermined - fell off & over R.R., road, up on slopes of ~~valley~~ other side of valley. like a snow avalanche - Crowsnest Pass prettiest on east side where

Mileage 4545 / 4379 = 166 miles
104
270

there are several small lakes.
Through Cranbrook, passing road from Castle Mt & Banff. just before. ~~Sta~~ Yamith Cafe advertised a lot but in town & we came on to Moyie - Looked at cabins on hill, got gas. ended by taking room in hotel where "they", a man & his wife, gave us very fair dinner - Beautiful lake, quite long but frost fries all about, much haze & can smell them distinctly - one right over ridge "they say". after supper walk up hillside to mines which cover hill - zinc & lead the store keeper said, (or was it zinc & copper) worked out but may start up again - Moyie grew up about mine, lumber yard & mill - Told us of the concentrator which grinds up stone & subtracts metal through chemical reaction with oil.

Wed. Aug 30. Breakfast at Lakeside hotel & off at 8:15. Through customs at Eastport, Bonner's Ferry (Kootenay river) to Sandpoint - Had mud guard fixed as bolts had come off. got gas; bakery across street & C.N. bought lunch. Then over long bridge with sand bars covered w. weeds, almost to Coeur d'Alene when we turned off to Spokane. Roads good except where they were playing with the gravel as usual - Driving around 50 & 60 Dodge Service Plant in Spokane fixed head light wh had been broken & did grease job & oil. Gained hour by change to Pacific Time C.N. bought Emerson radio for Charley. 19:50 & aerial & runs on dry cells - Left Spokane at 2:45 P.S.T. Passed horse relay races at Davenport but stopped only a minute - Then to Wilbur where we turned off to Grand Coulee Dam. very poor country with strange dark gray

outcroppings of rock every where - will take more than water to grow crops in it. Then down long hill to dam & towns on both sides of river - Got cabin in Mason City (east side) in Moto court run by Hotel. Ate on west side at "Green Hut" - Lights on dam quite spectacular - Pouring concrete see night apparently - Mileage 454 - 288 = 166 m.

Thursday Aug 31. Sight saw the Dam. took pictures, heard lectures at Gov't East & west Vista points. Then down up around Hidden City & other settlements about. Building highway over hills & there leading N. to Okanagan. Then down to Coulee City through grand Coulee, all of which will be filled with water. Dam will be built above Coulee City. We passed an orchard there (apples) wh. has been brought by

govt but they don't think it will be flooded. All this from garage man in Coulee City. Walls of coulee some 800 ft high, some miles or more across - Steamboat rock spectacular feature. Lava rock all through region - Then down to Dry State Park where we ate lunch overlooking dry waterfall & then down Lower Coulee all the old bed of the Columbia R. to Vantage point bridge over real Columbia where dry coulee joins it. Then into new greener more prosperous regions - still have to be irrigated however. Ellensburg quite a place & Yakima a city - Got films there & had diff. in parking - Then headed for Rainier 75 miles but rain came & stopped of whistling Jack cabins 40 miles on

nice 4-room cabin with ~~shower~~ running water, & fireplace. Good dinner & cozy evening. [The lands to be flooded by grand coulee are south to left of quincy] Mileage 5043 - 4820 = 223; Forgot to mention Petrified Ginko forest which we passed museum of; & saw huge specimens of trunks

Fri. Sept 1 - Left decently after breakfast in rain & mist. over Chinook Pass 5440 feet seeing little but big timber along way. Up into Park & 16 miles up to Sunrise Point - [N.P.S. man at gate came from Gtn. Phila.] Could see nothing. Unimaginative main cabin inc gift shop soda counter, cafeteria above. Cabins in rows on rows. Campground open & close together - few trees if any. Pictures shows Rainier is right across from them. Alp-

Fri. mileage 5043 4820 4820. 5232 5043 189 miles.

lands with trails lead up to smaller hillsides. Ate lunch. Then decided to pull out & go around through Tacoma to Paradise side. Listened to radio whenever possible, got blue over war news. Eng. will declare war tomorrow probably. Drove in rain all pm. Trees lovely. Took cabin at Copper Creek just before Entrance to park. Fair cabin, 9 in bed made up. C.N. on air mattress, Cot & my sleeping bag. Attractive main cabin & we the only people there. Radio is poor but do get it.

Sat. Sept 2. Bright & rain has stopped. Motored up to Paradise Inn in mist. Didn't see Rainier, the Mt. at all. Saw Com. House, cabins, Lodge wh. was closed, Guides House. several tame deer - doe & 2 fawns. Stopped at Longmire & Saw Campground. Walked Trail of Shadows thru big timber, about hot springs. (warm

Sat miles 5296

44 miles

Longmire's pioneer cabin. Heard broad casts of war. A blue day all through wired mother for return night letter to Longmire. Planned trip to Crater Lake & back to Yakima. Returned to Copper Creek cabin for night. Rain.

Sun. Sept 3. Clear, blue sky. Phoned from Entrance to hear not was never cleared. up to Paradise, got newsy wire from mother. Put tent up on campground. off with lunch for Skyline trail. Rainier in full glory above, clouds filling valley below. up to McClure's Rock(?) ate lunch at last small trees & water line. Then up ridge towards 2 story white fire watcher tower wh. we thought Camp Muir. met two skiers, carrying skis who said it was Anvil Rock Look Out. Decided not to go up as Muir was 300 ft

Sun miles 5304.
5276. = 28 miles

higher & 1/3 mile further. Said Henry Hall, & Christine Reid were in Seattle! one was a S. Mt eener & the other worked in an outfitting store there. Down & then around & short cut over Skyline Trail. Dinner at Mn. Eng. declared war this am. Eutherina sunk off Ireland - Bremen captured. Radio poor but we get news quite often - went to R. Naturalist lecture & found him more amusing than glacier Park ones. Told jokes & funny remarks of tourists etc. Bears about camp

Monday Sept 4. Two boys camped near us chopped wood at 5 30 am so C.H. got up & started things - Eggs, coffee toast, jelly for breakfast. off at 8:20 am Mackerel sky & sort of overcast. Yesterday was the day for weather - C.H. found glove lying on ground before Longmire Lodge where she lost it two days ago! Took drive

Mon. Mileage $\begin{array}{r} 5603 \\ 5304 \\ \hline 299 \end{array}$ = 299 miles

around mt towards west some 6 miles (this on advice of ranger.) Mt. quite diff thru. Then on Route 5 & headed towards Longview Bridge - got lunch makings in Kelso, then across Cowlitz River, then Columbia (Longview) River, up river to Portland - Lost thru as good broadcast of news came in. Passed park w. elk statue twice, got on 99 W, & 18 later taking pass to ocean. Some spec. roads, many cheap resorts, a line of cars came towards us all way down; Labor Day crowd returning; Pulled in at attractive cabins, elaborate called "Finisterre" on bluff above ocean. Woman ran out, insisted we look at them & in spite of expense C. H. liked it so much we took it, bought food - pork chops, squash, peaches at Depoe 1/4 mile beyond & settled in 2 room, bath, garage affair for night C. H. cooked good dinner - I had shower bed

Tuesday Sept 5. off to a late start at 10:30 am after viewing ocean from rocks below cabins. Then skipping the recommended aquarium at Depoe Bay, stopped at sea lion cave wh. proved to be high light of trip. Hundreds of "lions" there. Then on down coast - often inland, saw. bridges over deep bays, one Coos Bay Bridge - rocky coast mostly but one large sand dune stretch in center. Lunch in big tree woods near Adirondack lean-to camp affair near ? . on into Cal. to see big trees - Redwoods - inspection of car at border, dinner at cafe beyond some miles, cabin near Crescent City our furthest point South - unable to make Crater Lake - Big tree grove just before Crescent City. Fir Place Cabins 9 pm.

Mileage 5886. - 5603 = 283 miles.

To Crater Lake.
oregon Caves.

Wed. Sept 6. on to Crater Lake leaving Redwoods unexpectedly behind very soon - went thru 1 grove this am but last nights grove was biggest - Call road "Redwood Highway" & speak of "Redwood Empire" Take in oregon Caves on way (20 miles or so off our way) a 1½ hr. jaunt through limestone formation - stalactites - all made by very slow seepage - Little geology given on tour w. guide & 16 people but lots of foolish names - Exit through ~~man~~ man made tunnel (it echoes, others dont) to hillside & trail to hotel & cafeteria at entrance - Best part of caves. biggest room & Paradise Inn. Lunch at entrance then on to Crater Lake - at Sunset. Looked at cabins but put up tent, ate at lodge. which is rustic & outdoorish - piazza over-looks lake. Ranger naturalist lecture. Song & piano sola. Weather grand Bears in camp

Mileage 6125.
5886 = 239 miles.

Thurs. Sept 7. at Crater Lake.
went to Seminole Mem & got oriented. Then up Mt. above hotel. Mechanic doing my car which needs it badly. Fine views of lake Wizard Island (the cone in the center) the Phantom ship, a big rock below hotel to far right. Then to service sta. 3 miles down road to get gas; & to hear feeding grounds (the dump for hotel, govt. CCC) where there were a dozen or more - Cub came up to car hope Mama went off with him & 2 other cubs - after lunch walk down to shore (30 min) - took launch to ~~for~~ Wizard Island - up to small crater at top. Beautiful trip. (1 1/2 hrs.) Then return in launch & up to Rim Village (40 min) Then in car all around it. Devils

backbone only real stop - the hard lava shist quite spectac. from across lake - really a narrow projecting rock. Sun prong for far side of lake. Passed both then entrances to park. Then to dinner having decided to stay overnight in camp again. Bear scrambled up tree in night with an awful scratching noise. Some claws. Mileage 42 = {6167 / 6125}

Fri. Sept 8 off at 7:30 - met party of 4 run out of gas but other cars took man to Diamond Lake some 8 or 10 miles on left fork. On #97 - ran fast - Lunch near Maupin at grove of trees in camp, cabin, gas sta. grounds. first shade for some time - so advertised. Crossed Maupin River on to mt. Hood Loop. up to Timberline Lodge - a million dollar

W.P.A. affair, leased to Portland group. Each room different color & flower painting by W.P.A. - elaborate but not fire proof. Mt Hood rather bare glacier hung but brown "shale" bare looking approach - Can see Mt. Jefferson to South - Down & around to Cloud-Cap Inn (closed) on other side (N.E) Nice glaciers there. Views of Adams, Rainier, & St. Helens. Then to Hood River & down Col. R. Highway apple growing valley. Took cabin 8 or 10 miles down - Happy Dell - where pleasant woman gave us simple good meal. C.H. did accounts while I wrote this - & what trouble it is. Lights out & we used oil lamps. Mileage:

6503.
6167 } = 336 miles.

Sat Sept 9. Breakfast 2 miles down road as Happy Dell Lady had to go to Portland - Then

down to Bonneville Dam which is not so spectacular as grand Coulee but has highest ~~lock~~ lift of any lock in world + dam makes Columbia navigable up to The Dalles. Also has salmon ladders very elab. watched salmon go up for some time - took movies - Baby salmon come down quiet streams built for them at sides - When run of adults gets too crowded they bring some up in elevators beside lock - Inspected fish hatchery where Chinook salmon were spawning - Also had sturgeon and trout there. Then viewed falls along highway - several spectac. Douglas lunch at Bridal Veil + went down as far as Vista Point. Then back eating at one of falls + on up highway - Lovely

coloring - blue ribbon of the river through gorge of black lava ish rock. purplish & tannish hues near sunset. On to Pasco where we took supper at cafe, had car cleaned, stayed at Riverview cabins far side of town - Mileage 256.

Sun Sept 10. On to Spokane driving fast & road good & straight - Hit 80 once - Then lunch high above Coeur d'Alene Lake, having bought it in fruit market which was open. Almost to Missoula where road turns off to Kalispiel. Supper at Wayside Inn just outside Arlee where elderly cowboy & wife professional cook wife had this place raising own chickens garden stuff, cow, feed etc.

subsistance farmer probably. Had delish golden bantam corn. well fried chicken, not long enough. delish home made ice cream & cake. Best place was messy, woman's eyes & broken glasses very odd so I kept looking at Montana State Bd of Health license on wall. Man very intelligent, played guitar & radio. Cabins beyond town where we took the row cabin instead of one by the river where water would keep us awake all night. 376 miles.

Mon. Sept 11. Cooked reg. breakfast of coffee, egg, toast corn flakes & bananas. Jam. Have had electric, gas & wood stoves diff each am. Woman had Indian bead work in shop fr. Flathead Indians

through Kalispiel, on to Belton
Logan Pass (Caroline driving!)
where it was sunless & windy.
& down to camp ground below
Sun Chalet. Ate in little depression
out of strong wind - Saw fire
scar above St. Mary's junction;
ran in to look at St. Mary's cabins
wh. were closed, then on to Babb
where shell place was closed, then
to Kilmorey Lodge. Repack etc.
Its a nice inn. Polly P. crazy about
it with reason. Phoned Charley
we would be in Priest on at 8:30
am tomorrow. Mileage 231.
Tues. Sept 12 - Left at 7:30 raining
mist & rain. Snow by time we
were half way to Priest River.
At Charley's about 15 minutes
delivering Caroline's radios wh.
we got in Spokane. Back to

glacier Park Entrance about noon - Had battery tested at (a.m.) garage, emptied baggage, shipped it before lunch - Parked hair done, left at 6:53 pm Empire Builder (one section now since 5 days ago.) Mrs. Evans, girl & Harold from Two Med. Take bed on train / meta. waitress at many at station, visiting her sister who lives near there. Dinner on train - good night.

Wed. Sept 13.

13 Merion horse from ~~west~~ South lawn
14 Rose - (over exp.)
15 Rose
16 Mystery.
17. Poppies.
18 Flags.
19. Roses.

With apologies to Kipling's
"Feet of the Young Men"

Do you know that dripping alder,
do you know that racing creek,
With the slimy log you have to cross
or wet your socks.
And the endless sliding scree slope
where your knees get very weak
To the click of steel shod axes on the rock.

It is there that we are going, with
our beds + boots + axes,
To the silent, helpful pessimist
we know
To a couch of blow-up rubber,
with the wet tent on our faces,
For the mountains call us out,
and we must go.

continued.

We must go, go, go, away
from here,
On the other side the ridge
we're overdue.
Send our sky be clear above us.
When the rising pan is
banging
And the major calls for us.

N.L. Goodrich.
ACC camp 1939.
