Published Date: May 2018
Physical Description: 7 sections ; illustrations (some colour), colour maps
Medium: Library - Book (including soft-cover and pamphlets)

Subjects:	Research Alberta Development Maps Soil History History of Alberta Agriculture
Abstract:	<p>In August 2016, a group of about 40 residents as well as a couple of county councillors met at the Eagle Valley Community Hall to discuss the process of creating a new area structure plan under the oversight of a steering committee. The result of that meeting was a consensus to create a working group to provide the county with input as well as to help officials “understand who we are as a community, the commitment that we have to the land we live on, and our heritage, cultural and social resources that are in the community.” Five volunteers — Anne Macklin, Lynne Henry, Douglas McCullough, Bill Souster and Greif — formed the Eagle Valley Working Group, which is not affiliated with any recognized societies already in the region. Over the following six months, a questionnaire was formulated to glean information from the community’s residents. A summary of the survey’s results was then discussed during a meeting held at the Sundre Petroleum Operators Group’s office this past January. When the process started, a number of important stakeholders in terms of working relationships were identified, such as the oil and gas industry, social services including Greenwood Neighbourhood Place as well as the Town of Sundre. So following January’s meeting, the working group was tasked with preparing the legacy document. Included within its pages is information about Eagle Valley’s climate, oil and gas sector, geology, as well as infrastructure issues such as roads, wastewater, water, parks and recreation. A copy of the book, is available for sale at the Sundre Municipal Library.</p>
