Arnold Wexler, 1918-1997, was a research engineer and mountaineer in the Washington, DC area of the United States. Wexler climbed extensively in North America, Europe and South America, and also travelled throughout Asia. He is credited with over 100 ascents, almost half being first ascents.

Wexler was a key organizer and participant of expeditions to western and northern Canada beginning in 1946. Noteworthy ascents of that first expedition, to the northern Selkirks of British Columbia, were the second ascent of Mount Sir Sandford and first ascents of Sentinel Peak, Unicorn and East Blackfriar. Also, near the end of that trip, an accident claimed the life of an expedition member. Wexler and his associates made annual expeditions and trips to Canada from 1946 until 1955, and subsequently in the years 1961, 1962, 1963, and 1970 through 1974

Moore, Arthur Lembeck, Norman Goldstein, W. L. Putnam, A. J. Kauffman and others. Series includes extensive photographs, trip diaries and maps.

General files series consists of files pertaining to mountaineering, equipment, locations, climbing associates and expeditions. Includes correspondence, checklists, exhibition prints, climbing portraits, and research material in the form of topical files, maps and print material
