

### And Scabbard Dagger

<https://archives.whyte.org/en/permalink/artifact104.05.0056%20a%2cb>

Title:	And Scabbard Dagger
Date:	1850 – 1920
Material:	wood; metal
Dimensions:	1.7 x 3.3 x 24.5 cm
Description:	<p>A long straight knife with fluted wooden handle and scabbard ornately trimmed with brass. (a) dagger, short, narrow, pointed, double edged steel blade with small, dark, fluted wooden handle. Blade guard, cast of brass with raised curlicue design, turns upward at sides, handle tip of cast brass with similar design and small lug with hole through at one side</p> <p>Note: blade guard loose; wooden handle cracked along length; blade pitted. (b) scabbard, narrow and straight, made of two pieces of wood held together by two rings of heavy cast brass with raised floral motifs, becoming oval medallions on one side with cast relief of dragon like figures. Cast brass bands at mouth and tip repeat dragon floral motif of other two bands and have floral motif cut through exposing pebbly stone inlay in wood. Brass ring near top with small brass loop on one side.</p>

## And Scabbard Dirk

<https://archives.whyte.org/en/permalink/artifact104.05.0057%20a%2cb>

Title:	And Scabbard Dirk
Date:	1875 – 1930
Material:	metal; wood; fibre
Dimensions:	2.1 x 1.0 x 15.0 cm
Description:	<p>A very thin knife with ebony handle like rifle butt and wooden scabbard wrapped with bands of black cord. (a) dirk, short, narrow, pointed steel blade with reverse curve to sharp shoulder on under side of hilt. Small carved ebony handle shaped like a rifle butt, with carved band of scallops and diamond shapes around middle. Two decorative notches carved across butt of handle. Note: handle checked along length. (b) scabbard, small, simple and straight, carved of two pieces of wood with triangular opening at mouth. Top carved to curve downward on one side to accommodate shoulder of blade. Girded with four double bands of finely braided cord, evenly spaced along length, and a fifth triple band at top beneath shoulder. Note: top fibre hands loose and slide up and down.</p>

## And Scabbard Knife

<https://archives.whyte.org/en/permalink/artifact104.05.0060%20a%2cb>

Title:	And Scabbard Knife
Date:	1850 – 1935
Material:	metal; shell; wood
Dimensions:	4.6 x 2.6 x 33.8 cm
Description:	<p>Knife with carved pistol grip handle and flame like carved piece at mouth of wooden scabbard. (a) knife, thin, curved, pointed steel blade with handle carved of greenish tortoiseshell ? shaped like a simple pistol grip. Deep single groove incised at each side at top near hilt. Blade joined to handle with roughly formed collar of grey metal. Note: hairline cracks in handle along grain, blade pitted and rusted. (b) scabbard, simple, slightly curved, wood with hoof like ebony tip. Band of tortoiseshell ? at opening carved in shape of flame or flowing leaf sticking out to one side. Round hole drilled through top, five thin lines incised across wood spaced evenly along length of scabbard. Small patches of glossy black material in a few places, and a black colour in the grain of the wood indicate that the wood may have been once enamelled black</p>

## And Scabbard Kris

<https://archives.whyte.org/en/permalink/artifact104.05.0059%20a%2cb>

Title:	And Scabbard Kris
Date:	1850 – 1934
Material:	metal; wood; stone
Dimensions:	2.5 x 9.0 x 52.8 cm
Description:	<p>Kris with carved light coloured wooden handle, collar of pink stones between it and blade, and wooden scabbard of light colour with dark splotches and large organic cover for sword guard. (a) kris, long, narrow, pointed, double edged blade flaring out at shoulders which have ornate, lacy edges and deep double groove incised on either side of blade. Handle is an angular, carved block of wood with a wide band of ebony girding its middle. Small brass ring set in with round pink stones jade? at junction between blade and handle. (b) scabbard, carved of light coloured wood with dark patches. Straight, wide, and rounded at tip with large, flat, rounded crosspiece at mouth. Opening elongated at one end to accept wide shoulder of blade, and crosspiece slightly carved to accentuate shape. Dark splotches of heartwood form organic patterns on the lighter wood of the scabbard.</p>

## And Scabbard Sword

<https://archives.whyte.org/en/permalink/artifact104.05.0050%20a%2cb>

Title:	And Scabbard Sword
Date:	1850 – 1909
Material:	metal; wood; skin
Dimensions:	3.6 x 3.5 x 53.5 cm
Description:	<p>A small narrow sword with wooden scabbard and handle shaped like angular dragon's head. (a) sword, small with thin, narrow, sharply pointed blade, of one piece with handle which is shaped like angular dragon head on long neck. Blade is inlaid with strips of bronze on each side and along spine with incised geometric designs, and a double notch cut into spine on each side near the middle. Handle is overlaid with bronze strips into which designs and features of dragon have been cut. (b) scabbard, made of two pieces of wood shaped to fit the blade and held together with five metal strips around the outside, evenly spaced along length, one strap missing. Front side completely carved with intricate geometric design and small slit carved out near top through which is tied a leather thong.</p>

## Dirk; Scabbard Sword

<https://archives.whyte.org/en/permalink/artifact104.05.0051%20a-c>

Title:	Dirk; Scabbard Sword
Date:	1800 – 1880
Material:	metal; wood; leather; skin; fibre; horn
Dimensions:	7.4 x 66.6 cm

Description:	<p>A Japanese samurai sword with black cord handle and black scabbard. (a) sword, long curved steel blade connected at hilt with brass to wooden handle covered with white pebbly sharkskin which shows through diamond shapes left open under silk cord which wraps handle. Metal band at base of hilt and metal cap at its end have relief casting of leaves and blossoms, and a bronze casting of blossoms is caught under black cord wrapping handle, oval sword guard has cut out relief of branches and blossoms, with holes on either side large enough to allow dirk to pass through. (b) dirk, long thin blade set into brass handle with cast relief of heron standing in stream with incised bushes around. Japanese calligraphy on other side of handle. (c) scabbard, slightly curved to fit blade. Wood covered with fine grained leather with narrow black band, horn? at mouth and another at top of slit pocket where dirk slides in. Pocket groove on one side near top to accommodate dirk, and semi-circular black piece of carved horn on opposite side, threaded through with flat braided black silk cord to tie scabbard to belt</p>

## Dirk; Scabbard Sword

<https://archives.whyte.org/en/permalink/artifact104.05.0061%20a-c>

Title:	Dirk; Scabbard Sword
Date:	1800 – 1880
Material:	metal; wood; fibre; enamel; skin

Dimensions:	6.7 x 6.0 x 54.5 cm
Description:	Japanese samurai sword with blue silk cord wrapped handle and black enamelled scabbard: (a) sword, long, slightly curved, steel blade joined to hilt with wide copper band. Wooden handle wrapped with blue silk cord with pebbly white sharkskin showing through diamond-shaped openings in wrapping. Metal cap at end of handle with relief of squatting figure reading scroll. Small cast figures of two deer caught beneath cord on either side of handle. Metal band at base of handle with relief of gilded figure in reed boat. Rectangular sword guard with cast relief of chrysanthemums and butterfly with holes cut through each side to accommodate small dirk handle. (b) dirk, steel bladed with copper handle with relief casting of brass dragon on one side. (c) scabbard, slightly curved wood covered with black enamel containing green flecks, blunt end, top of scabbard has slot on one side leading to pocket in scabbard to accommodate small dirk. Opposite side from slot has semi-circular horn ? lug threaded with a length of black silk cord. Note: small band at top of dirk pocket missing, enamel cracked and peeling in many places, especially near top, semi-circular lug loose.
