

J DAILY J
JOURNAL
== 1939 ==

My duties are to Supervise fire
& game prevention & protection
game protection.

To enforce Park regulations &
to instruct Park Wardens in
their duties & to supervise their
work.

To Supervise the building of
Cabins, trails, Phone lines &
& other improvements. To make
reports & do other related work
as required. To Supervise grazing
& timber cutting operations.

To make monthly inspections
of all Cabins, trails, Phone lines etc.

To inspect & see that all
fire fighting equipment is kept
in first class condition. Etc, Etc.

~~My Work is as~~

Fire Protection 25% Fire Prevention 25%
Supervise Construction & Maintenance of trails &
Phone lines 15% Game Protection 20%. Office 5%
Misc 10%

NOTE.—This fire-map should accompany Warden's Fire Report for all fires. Show on the map the area that was burned over; WHERE THE FIRE STARTED; where the timber, young growth, swamps, grass land, etc., were located; wind direction; fire-guards constructed, and in case of fires along railways, the mileage.

N.P.C. No. 153F
Reqn. 6654

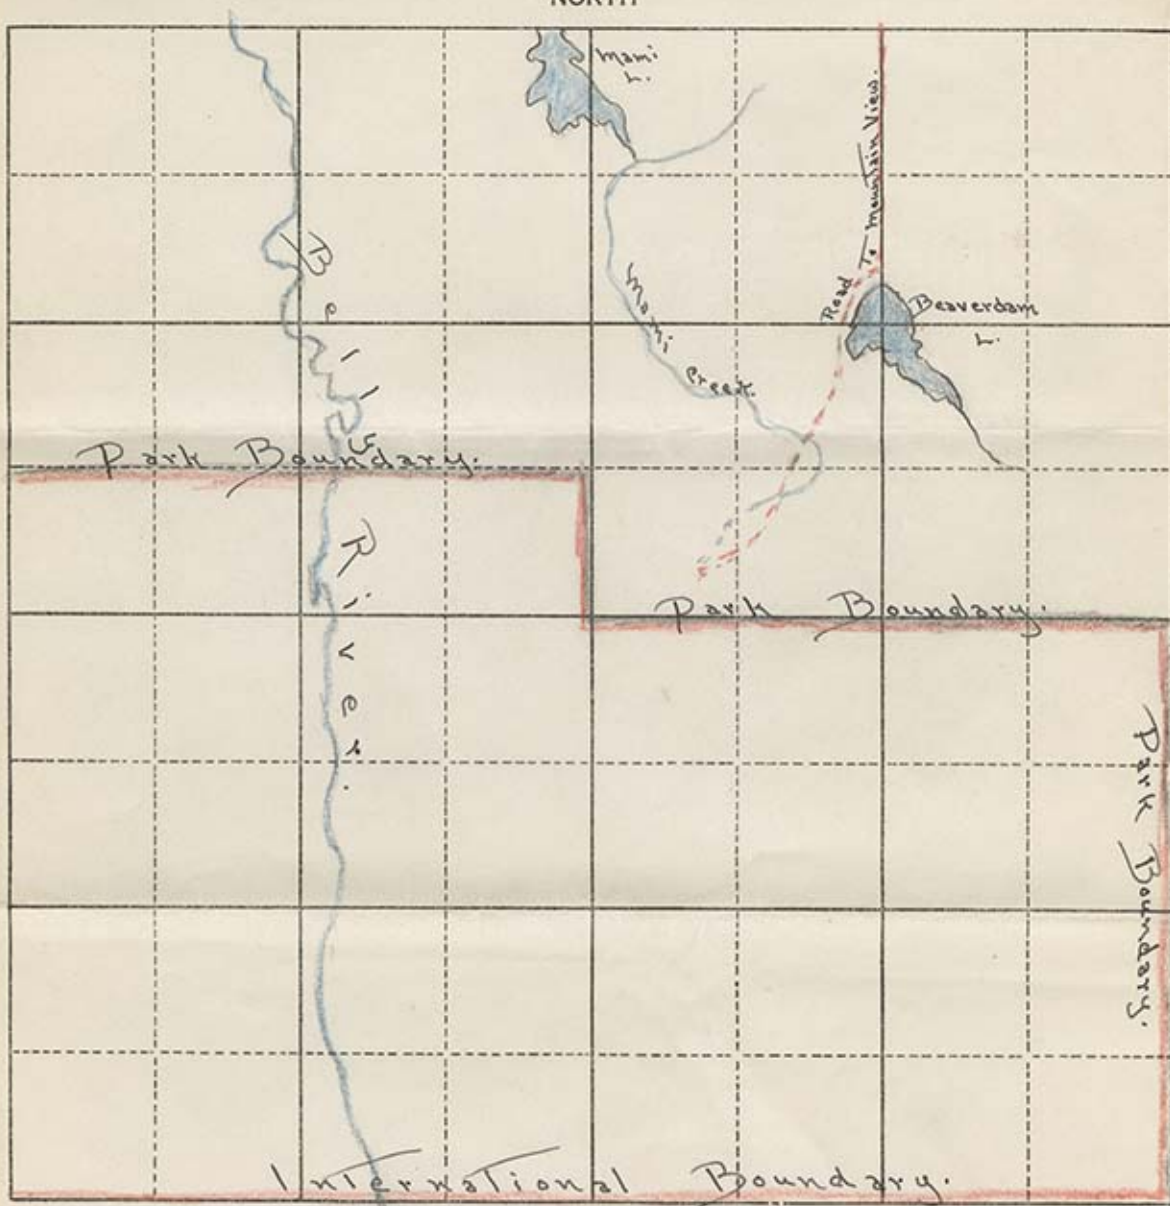

DEPARTMENT OF THE INTERIOR
NATIONAL PARKS OF CANADA
FIRE-MAP SHEET

Park Watson Park Name of fire Fire No.
(Give some suitable name to the fire)

Location
(Locate by sections, etc., if land is surveyed; otherwise locate as well as possible)

NOTE:—Fill out this heading carefully to correspond with that on Warden's Fire Report. Scale inches = 1 mile.

NORTH

NOTE:—Scale used should be not greater than 2 inches to 1 mile. Be sure to specify the scale on your map.

Signed
Warden

Capt Supt Le Capitaine Westerton Park
May 24 1903

Dear Sir,

I wish to submit my report on Warden's Annual Meeting held from May 2nd to 6th

All wardens in attendance except Warden Burns who was off duty on Sick leave.

The following subjects were taken up + discussed. Fire Prevention Fire Protection Trust + Phone Line building, Game Picking, Etc. All fire units Town hydrants etc were tested to 84 ^{PS} lbs down

During practice after test runs
made trouble was found to be broken
they in drive shaft. This was
repaired immediately by Mechanic.
PVC Unit used March 1934
has not as yet been allocated
a number.

All Ramps, ladders - Etc are
in excellent condition.

New equipment recently used
in tests ~~was tested~~ such as
Gardner Water hose hose Reel Etc.
were tested, hose reel was
found not satisfactory as hose
would bulge through spaces of
reel + roll on wheel this would
be corrected by having

heavy galvanized zinc
Rt between sheets of steel
This unit is now very satisfactory
Gracie says need more
found to be for superior
to those formerly used.

Sheet's showing results
of tests on engine bay
Sheet's are enclosed herewith

Yours faithfully
J. H. Hayward
