1941.

Chateau Lake Louise

Twin Falls w. Polly.

Emerald Lake.

1941

Mon. June 30. Left Paoli at 5:34 pm E.S.T. on "general" in new type drawing room holding three people. Emily & Stuart Mudd at sta with small boy; & Peggy who was 11 yrs & going to visit cousins in Madison. Also Mrs. Edward Swift Newton & her daughter Josephine. Latter got on train to Cal. Isr Eel to see us off - Dinner in diner -

Tues. June 1st. Arrived Chicago 7:40 E.S.T. Ate breakfast at C & N.W. Sta. checking 11 pieces in 4 parcel lockers & ice axes at package room - Sat in cold air conditioned dining room till 12. Then in ladies waiting room. Phoned both Kramers but got neither

On Mount Cheer at 1 pm
& en route - Didn't get out
much or even visit Observation
Wed July 2. En route. No trouble
w. immigration or customs - Easier
than usual if anything - Got
paper for movie camera.
Thurs. July 3. Arrived Banff
9:15 am. Cloudy but clear.
Got off & asked about car.
It was at Exshaw & would
arrive that morning so let
Mother & Sig continue alone to
Louise. Went to Banff Springs
shampoo - Met Dan, Stiven, Miss
McCoubrey, Mary Campbell - Then
to alpine club house for lunch
w. Mrs L. Major & Aileen Aylard.
They have new projector & screen
(an Eastman & Da Lite) Also pan
of Jungfrau - Mrs. Sadler back

To customs office + to get car
+ to Louise - saw moose on lakes.
no other game. Mrs. Gilmore + Frances
James to greet me + Martin + 9
in Room 309 + Lig 310 - after
some changes - Talk w. Edward
about Chris after dinner + about
Walter Häsler who is not doing so
steady - Lots of air corps men
at Banff sta from train. Walter
may join up he told Edward.
Fri. July 4. Beautiful am - +
sunrise about 4:30 Took pictures
after breakfast + went to both
dumps. 8 half grown bears at
incinerator. Took Margaret
Maule + Miss (?) Forbes (staying
at Deer Lodge) to second dump
No bears - Then to room, + to
Moraine Lake for lunch. Two new
cabins built since w. toilet + shower

fireplace, porch. Sig. & I walked to end of lake while B N G. Sat on porch. Lunch a cold platter not too good - desert good. May go there to stay later. Clouding up again. Both took naps. Edward left for Abbot Hut with Goodrich & one or two friends. Listen to Frances James. in eve. She say old Kentucky Home as if she liked it very much. She said later she did. Talked to manager's wife Mrs. Meredith. Miss Stevens, the nurse.

Sat. July 5th. Left at 8:10 for Plain. Sun out but Victoria in cloud. Lovely reflections, porky on trail. girl in picturesque camol. Birds making music. Loitered. Reached tea house about 10:30. Run by girl who has been out

here 10 years. One goat high on ridge above trail. Six staff boys on day off - en route over Mitre Pass - one with guides sack. went up trail to end by glacier. Saw Edward + 3 Columbus (goodrich) descending from S. Peak Via; 6 boys on col, + Rudolph + Curio shop girl Kay on summit of mitre - Rain began + lay under shelving rock on goat trail. Then down goat trails to tea-house; rolls + honey for lunch. English man, wife + child about 9 yrs. "Anne" there. Man + child eager. have been here before - Started home in rain but sun soon out. Mother in room entertaining the Adamsons. Murray came up for day. Talked of Daddy's violin - may come to Philly + try it. Delicious bath + nap. after dinner Edward into.

duced me to Walter Wilcox who is here for first time since 1929. He talked of old times, Legion & Fred Ambrister. Had been on sleeper for 4 nights from Bar Harbor.

Sun. July 6. Sig off early to Lake Agnes & both Beehives. Lovely sunrise at 4:30 & she decided then. Mother up about 11 am & we went slowly to Emerald for lunch. Saw 2 deer near Wapta House around four. Beautiful clouds & lovely lights. Sig back & had good tilt. I dressed in knicks & went slowly up Agnes trail. Thrushes singing everywhere. Met three Swedes & another man on trail. Then two women on Little Beehive who thought they were the only people on the mt. Clouds & valley lovely but mosquitoes were

bad. Teahouse at 7:45 pr biscuits & honey. Man fr. California there studying maps & wanting to see best of everything in few days. Asked lots of foolish questions about best views. Down steep trail to Minor Lake & home at a stroll. Moon with mist about it up about 9:15. Edward says it will clear when moon changes Tuesday. Mon. July 7. Took the Yerkes to the two dumps to get bear pictures. Rained a bit but got good ones at Chateau one. None at Lower. Yerkes are going to Moraine at noon, then on to coast & grand Canyon. Arranged to show pictures in guides' chalet tonight. Clearing. Phoned Polly Pierce at Club-house where she arrived at 9:15 will meet her at Louise tomorrow & go into Yoho. Drove up Bow for 15 miles this aft. Pictures in guides chalet

with audience of nine or ten - new guide Bruno Engel (?) had some Kodachrome stills of skiing - Mr. Walter Wilcox there, Kay the tall girl at the curio stand; Joe the boatman + his wife; Hart the head porter. Ernest was in golden.

Tues. July 8. Met Polly on mountain at Louise - Then to Yoho Lodge for lunch walked 7.3/4 miles to Twin Falls Lodge. Mrs. McCandless at Yoho. Miss McGuyer a Kansas schoolteacher (Phys Ed. female) + Mrs. S— at Twin. Saw Joe Cohen with very young climbs on trail took pictures of them, Angel stairs + Point Lace Falls. After getting room at Twin we walked down to Marpole Lake where couple fr. Edmonton were fishing. He caught one but many were swimming around. "Looks like a fish hatchery" he said.

but he had no dry flies - girl
boated to take them off hook if she
caught one so fished to miss them
when she fished at all. Good dinner
chatted to bed early up & walk up trail
Wed. July 9. Cloudy but sun
promises to come out. It did at 9:30
& we were glad we waited for
pictures of Falls. Then up trail to
right of falls, long switch backs
& finally there it looked. Trail went
way back, up & over & came down
to top of falls. Took picture of Body
near brink with Twin Falls Lodge
visible below. Then up trail where
bridge has been out for several years.
Two snow bridges above make
crossing possible. We crossed
& then proceeded over some slopes
to head of valley. Lunched on grassy
bit by stream. Chilly as clouds

obscure sun. Then on to col between whaleback & Isolated Peak. Snow near top & jagged rocks made sort of gateway. Then down shale to valley. Polly saw a porky but no other game anywhere in sight. Came down at Lepine camp site & then down to Mitchell Hut. Fit fire & had cup of bouillon on hand with rest of lunch - cookies were delicious. Left around 4:30-5 & took trail down on left of stream. Easy going & light lovely. Storm which threatened did not come. Passed fork to Yoho camp - Some up hill to Twin where we arrived around 6:15. Good dinner, chatted with the two women who are glad to have company - turned in. Slept wonderfully the first night but not

tonight for no reason. Falls sounds like locomotives coming up hill but do not disturb one.

Thurs. July 10. Beautiful day & sun is on Falls even at 6:30 when we breakfasted - Packed up & left. My bill 9.00; Polly's 10 with lunch for trip today. Down trail pictures of Laughing Falls in sunlight. More fool hen & chicks, these larger ones with wings probably 2 wks old. old mother almost flew at me - chicks flew up in tree. disappeared but a search uncovered one or two. Also heard moose or deer near Duchesney Lake & I followed in to shores of Lake - stony bare shore for few feet, then woods & rocks - quite lovely - dry stony flat above bare of water, looks

like a kick & probably is. Reached Yoho Lodge by ten meeting Emmy & Eric Brooks camped on trail - Eric's brother & wife w. them but did not meet them. gave Eric Ray to take. They expect to stay a couple of nights Then Polly took trail to Summit Lake, Burgess Pass & Field - I go by car to Lorne. Mother & Sig mostly packed. Beautiful day - Bath, dressed, packed to go bike, chores, etc. & off about 3 pm to Emerald where we have NOT cabin "Morning Glory" for three weeks - Got settled & sorted clothes - very restful & we all feel at home. Same staff as last year for most part - War news more encouraging as Russians are

putting up "obstinate resistance"
Roosevelt has sent our forces
to Iceland! Didn't sleep very
well until late.
Fri. July 11. Woke at 8:10 with
Mother & Sig both up. Left to meet
Polly at Field at 10 am, with camp
& other clothes both in car. Drove
to Wapta & made arrangements
with Glory Temple the guide to
pack our stuff into O'Hara
tomorrow. Then to Lorne to
get canteen out of my checked
duffle - then to lunch at club
house. Dorothy Hay here on way
into Mitchell Hut with 3 other girls
Mrs. Trigenthaler whose husband
is with Ray Gillmer on trip from
Blue River, Miss Trenholme.
& Dorothy Meredith - Bought
grub for a week at Red & White

Store waited on by boy who was at Hoki in 1934. Recognized me but I didnt remember him. Rained a bit but not heavily. Saw old friends in Hamms. etc. In Mr. Rundle cabin. Showing pictures this evening. Mr & Mrs. Ruggles George here. John Wheeler up; Showed both stills & movies.

Sat July 12. Met Kay & Frances at Banff. but told them to go on to Louise & meet us there as car would be pretty full of bags. Got food (perishable stuff) at Red & White & got Kay's boots fixed at Vaugants. Then to Louise but went back after 6 miles or so to get key to cabin. Found Margaret Fleming & friend were there & would leave key at Mrs. Graves. So to

Louise & picked up girls - at
Wapta had lunch. Checked bags
at Lodge & left food for Glory
Temple to pack on two horses.
Corral is east of Lodge & we went
to old one west of Lodge. Then had
to pack up again - Lots of butter-
cups there. Parked car at corral
between two trees & while walking
back to the buttercup corral two girls
passed on horses - Second one couldn't
manage horse & he headed into
small corral - I then led him up
road to Sherbrook Lake trail -
very last on trail - Looks as if
tractor had come in over it.
Passed man on horse & 2 horses
in corral at old camp site below
Cathedral. Looked at Victoria ridge
as we came along W. view to climb
it. Passed elderly man w. beard

& woman in Rockies on trail just before reaching Lodge - They had started at 11 pm. We saw Mrs. Grames & came up to cabin to find Marg. F. & Erica Van Engel from Winnipeg here. Waited for them to have supper & then sorted food & got settled in bunk house. which holds 14 on two shelves. but there are only 11 blankets! Kay built incinerator after supper which turned out to be our camp fire - Margaret suggested cocoa & then to bed.

Sun July 13. Up leisurely & Polly made the fire. Beds were hard but we all slept - Took lunch to Lake McArthur - Saw mother & baby goat on slopes below & I stalked them for pictures - Girls had lunch & went wading.

Beautiful day + I used lots of film on flowers, lakes, reflections, poplars etc. Polly + Frances bathed. Then to cabin where Mary + Erica were about to leave for Mitchell Hut - They cleaned up everything, even washing towels + left us cocoa - Polly stayed to cook potatoes, cauliflower, pan cakes, chicken etc while Kay Frances + I went to Mrs. Graves where I mailed two movies + one still - Then sat on dock watching lake until the two boats came in Kay then ~~rowed~~ rowed us to end of lake + Frances rowed back. Polly had dinner ready on our return we transfred beds to the cots in the living room while K + F. washed dishes + Kay peeled potatoes - Beauty evening + a number of persons pass

inc Mr + Mrs. Gustave Laudt of Norristown (who also Skate Heaumed Cats)
Cabin to go toward McArthur
Mon. July 14. Left promptly to go to Copabin Pass - went up first to Crystal cave - is a little deeper than it was as I remembered it but much the same. Then on to stream where logs were across but had to cross. Tried to go round but couldn't so crawled over. Joined regular trail soon after. Lovely day, lakes beautiful. Saw + photod ptarmigans + chicks. Lots of water ouzels at La Balde Lake. Flowers pretty good but not best for this year. Everything was too early. Up moraine + then up glacier going right up on the bumps in centre. Snow over crevasses very solid then down to large hole, bad ice crevasse - As we went towards summit of pass we saw tracks

& thought someone must have been up. Then we found a distinct print & it was a medium sized grizzly. Had come up from Prospectors Valley side blundered his scent in spots. Sun very bright & frankes feet it a little. Dont know why I didn't. Ate lunch on pass & then returned by same route Plotted flowers on way back - Clouding over a bit which keeped. Down leisurely to Lake & home. Katharine had not gone with us as she was unwell - Did the chores & seemed to have a nice time. She & Frances that they would like to do Hemyoke but no guide seems to be available. Mr. Goodrich & a young couple Mr & Mrs. Rockwell with him home

asked for Edward but he goes Sunday with Bert Weibrecht to the Trail Fields - May get Bruno who is back from Glacier because his climbers had a bad knee. Mrs. Graves wire try & find out about guides. Sat afternoon wandered around camp site beyond stream where large party seems to have camped. Also discovered new trail wh. from that was Mr. Link's trail which he was cutting last year hoping to go up into valley & lakes below ordinary. Found strange specimen of life in stagnant pool by stream - It looked exactly like a white hair 4 in. long & it waved in the stream. Taken out on a stick it curled up around it & seemed to be in distress - Head is black but

so tiny one can hardly see it. It revived when returned to water & started undulating in the water after a few minutes.

Tues. July 15. Left at six pm to climb Odaray. Note on door said we'd be back about 5 pm. Or sooner or maybe six! We took key so not one could get in. Went by circuitous pony trail to Odaray Plateau, then up rocks & snow to glacier. It was ice & stones when coming down continuously - small & sliding mostly. Polly roped us & started across snow slope high up. Just before reaching ice we saw large stones coming down & decided to turn back. Then we went to col way over on left & started up ridge.

This meant climbing the whole long ridge & making two summits. Lovely views of Mac Arthur & of Goddess - mostly flat ridge walk - some slopes interspersed with cliffs below. Couldn't make col by ridge so had to descend. Found very safe small chimney by which to descend cliffs - then up some gravelly to col where we joined the regular route. Polly Kay & Mary S. had tried it before & missed the route at ~~this~~ first pitch - Is on reddish yellow rock & looks bad at first sight - It really isn't - Second pitch is on black band of rock, is longer & has slight traverse to left. At the notch the descent by a couloir along side a gendarme is steep & opposite the ascent

looks impossible as there is a overhang. Polly did both very well - We could follow route by the scratches on the rocks. Gained summit after another pitch - Stayed half an hour. 2-2:30 - Then down reg. route to col + then around the mt. on snow interminably - finally saw on ridge of the ascent ahead: to short ascent to get around snow + we reached it. Then down snow + broken rock bands + couloirs to basin closed in by mt on both sides. Little cairn on rim. Went down two rock bands after this to reach ~~flo~~ alps below. Last pitch was down loose ~~on~~ goat trail: pretty fresh too. I think we

could have walked off bench by going towards head of valley - Frances thot she saw a goat - maybe a white stone. She & I went ahead leaving Polly to come down last slope, coil rope etc. Left her & Kay yodeling at foot of cliff. Came out finally just above the O'Hara-Mackithan camp ground & started trail. Two seconds after we reached hut the Rockwells came up "for information" - Told them about ordeal but heard later Goodrich would not go on trip & be out 14 hours as we were - Then Mrs. Graves came up with telegram for Kay Frances about rucksack which she ordered after Billy

Newman in golden. Polly + Kay came about 10 minutes behind us - all tired. had soup. salmon + peas + bits of tea. Polly on Tuesday had received wire fr. Mrs. Monday asking her to go on Coastal Range trip with them in their boat. 5 days hard packing to undertake peaks. Decided after some wavering to go, encouraged by all of us. Wed July 16. Polly has decided to come to Banff with me + make arrangements for Vancouver trip. So both girls decide to go too. Polly + I left first to go to Emerald Lake for lunch. the others followed later. Arrived at E. L. at noon + Sig came out of cabin for lunch. Had baths + lunch. Mother looks quite well + very comfortable

in first cabin "Morning Glory" Left about 2:45 & picked girls up on road to Wapta. Then to Banff - Yoho River very full & over road & storm brewing down Bow River which looked like smoke. Rained on last six miles. Club house full - we eat on second shift & three girls sleep in writing room on couch cushions I am in Rundle with Dorothy Dilley Richards. Went down to hotel for errand & then showed Kay. Glacier Park pictures of 1939.

Thurs. July 17. Went to hotel early to cash cheque for Polly. for her trip. Then to Indian Day Parade. Parked car at P.O. & then climbed rail fence for

an over all picture. Then with Kay carrying rucksack with extra films I dashed around taking movies & stills, & stills for Sammy Sampson too on the camera he is giving his father. Saw Mary McCowan - Then to hotel for more pictures - Stood on parapet around the courtyard with Kay - Saw man taking our pictures too - had heard & think he may be Burton Holmes. Took 150 ft of movies & 2 rolls stills at least. & mailed them. Then to town for ice cream soda with girls & Dorothy who joined us for day. Shampoo at hotel. met Murray & Miss Weil, & Miss McGowen - Then to late lunch at Club-house. 1 to 4 pm. went to race track - took more pictures. Dan

Mary & Niece there in car. Next to Burton Holmes who sat in back of Brewster touring car while he gave directions to young photographer w. camera & tripod. Took hs. of Indian family groups. One sat next to us at races w. lots of young tots Bucking. Heat was lightened by cloudiness & storm came late in aft - after supper Wates who visited w. Helen today showed lantern slides, I my Louis, Goodrich, & 2nd camp 1940 movies. Bill still up. He is engaged to Jean Vallentine & has job at Banff Springs Hotel - Walter Block - Hiller also had some 100 ft. reels. He & Paula are taking them for America the Beautiful & all done on tripod.

Fri. July 18. Left about 9 am for Louise, then waptn + E. L. Girls returning to O'Hara. Found that two of Caroline's party were at Club-house - Stephen Weber + Mother. He had sense of humor - we picked them up on road to town. Had talk w. Edward at Louise Thesa said goodbye to girls at Wapta. Caroline greeted me at E. L. as I passed her cabin + Josephine Doran at hers which is opposite ours. Visit with Caroline after lunch + with J. after supper. Rested most of afternoon. Rain in evening much cooler. Sat on bed + wrote up diary. Storm coming + rain.
Sat July 19. Wrote letters + postals all am. Sig that of going

to Summit Lake but decided to go tomorrow & start early. Miss Cushing of C.H.'s party to go with her. Around cabin all day till aft when C.H. & I rowed over to Lone Duck Lake & sat & talked in woods. In evening showed 1940 stills to whole hotel including C.H. party. Much appreciated. Lasted 45 minutes. perhaps a bit short.

Sunday July 20. Cloudy. Sig. started off about 8:30 with Miss Cushing one of C.H.'s party & said to be queer but only one who could walk. They are to go to Summit Lake. Rain in am. Decided not to change Glacier Park reservations & so will give up Moraine Lake accommodations. Caroline & I had early lunch & drove to Field to see Prescotts & Frances on No.

to glacier.
3 train. & Dorothy Richards w. them & saw 8 or 10 others on train mostly in diner - At 3pm. C.N. & I went to Summit Lake trail waterfall to meet Sig & Cushing - No sign of them - That they must have gone down to Yoho or over to Burgess Pass. Home at 6 pm, bath. dress dinner, No Sig. To show glacier Park pictures at 9pm. At 8:30 talked to cowboys about going to look for them. One started on horseback to Summit trail - other on foot to Burgess - I walked out to Burgess & yelled - Sig answered mine. but I wasn't sure it wasn't from hotel. waited & shouted again Sig answered. Then boy came up & Sig appeared followed by Cushing at snail's pace. Had a fine day but pretty long & Cushing had bad blister - I dashed back as it

began to rain & pictures were due - Sig fixed blister for Cushing & didn't get to room till after 10:30. I showed all of Glacier Park pictures to appreciative audience.

Mon. July 20 - Woke to hear C.H. & party preparing to leave in bus & 2 cars. C.H. came down to cabin to say goodbye - Cushing feet fine & loved trip - They are to go around Big Bend to Revelstoke, take train to Golden meet cars after they returned at night, & go to Radium Hot Springs. Chalet blue had 73 in for breakfast at 7:45. Room was filled when I got there at 8:30. Mist down low but clearing - Rain off & on all day. Met Leo & Laura Triefenthaler as they got off bus just in from Wiebdelets trip.

Edward went out & they came in w. Mike also who will be cook for alpine Club - Ken will cook for Brit. W. Took walk w. Tiefenthales who had been out 2 weeds & covered quite a lot of ground. Pinto Lake, Castleguard, Jonas, Pobokton, Brayeau, ~~Cobalt Lake~~ Cline. Then to Low Duck where man said he had just seen ~~a moose~~ elk. Asked him if it was an elk or moose & he asked how you could tell them apart. So I guess it was a moose - We waited but nothing happened so both went on our Separate ways - Walked around lake & soon found I was on trail down Emerald Creek. Returned without event. After lunch took boat & fished - very windy no bites or sign of fish - Head now

to get back from far and when there was a gale. 3 Staff boys tried hard to upset their boat by standing up, changing places & oarsman every two seconds. Asked me if I could make it or needed help. Then to lookout bench over bridge to watch for birds - A yellow-black capped warbler there; also a creeper or nuthatch with black & white wings, robins & swallows - latter are white underneath. Margaret Maule on trail looking at berries & flowers. Blueberries are almost ripe. Saskatoons & others. She & Miss Forbes are here for some days & she knew Josephine Doran who is with Caroline. Read Albertan after dinner - Reds still holding

Tues July 22. Decided to drive to golden for lunch - Miss Forbes brought her stereoptican pictures to show us on our balcony. The camera takes two prints one for each eye & it gives depth. Asked her to go to golden with us. Miss Maule out for a walk up Emerald draw - Lovely drive with beautiful clouds. Arrived golden 1pm for lunch at 1:15 - 12:15 for them. Told the ladies were coming for lunch. The Hurman Party who had driven to Revelstoke, spent the night, returning on 1:07 train to golden where cars met them. Had good lunch before they arrived - Then walked up street to welcome them to golden. C. H. used my map & found it very useful. Then to Billy Wenman's ordered a small rucksack - went to see Chris' house next to his around corner

from hospital - Storm as we came up towards field - Fine view of Chancellor as we approach Beauchoil & we look straight up Beaufoot valley. It looks like main one. Saw ravages of fire of last august high on hillsides Lydia Woolman & party - Miss Bush, Miss Phillips, Miss Denison (?) arrived - Told them they were written up in Col. Herald about getting car through customs - Miss D. an older woman - is she a chaperon. Woolman & Phillips are wackies but P. has only sneakers.

Wed. July 23. Beautiful day & Sig called us at 7:30. Decided to chase goats on Burgess going to Summit Lake first - off about 9 am with lunch. Climbing over & over generally in for pictures. Man &

woman w. Mt. boots + hobnailed
passed me at little waterfall.
Took pictures of combined Twin +
Tahkakaw Falls wh. come down
from Vice Pres. + Michaels. Took 2 ½
hrs. to Summit Lake. Group of
some six tourists (!) then from Johns.
walked around towards end of
lake looking for moose who hangs
out there. Thot of going up that side
but decided against it. Then on
trail to Burgess. Signs say 3 miles
to Tahkakaw, 7 m. to Twin by High Trail
4 m to E.L. + 4 m to Burgess Pass.
Passed tourist group eating lunch
with lovely view at open spot on
trail. Ate at 1 pm. Mr. Breck of
Phila (Miss Maude Knows him) passed
alone on horseback - Told me there
was a spring further on below trail.
Six goats were on ledge above +

so I headed for top of ridge. Wind
eccentric but mostly right. Goats
moved off ridge & I couldn't find
them for a time. Think they
were disturbed by people on trail.
Tourist groups passed on trail below.
"They say it is 1000 ft up ridge. Lovely
flower gardens there of willow herb.
yellow & blue flowers. Reached ridge
after shale & scree scramble. Found
group of 8 goats on other side of wadi
cliffs. Moved over their trail &
missed close-up but got telephoto.
Was good picture if not too dark
gave it 4.5. Then back to ridge
& goats I was stalking. Two
tourists spoiled this as they climbed
ridge too & scared them. I saw
group come onto ridge, move
along snow cornice, a marvelous
picture but I was too far away.

Tourists said they were sorry. Didn't know they were there. Almost ran onto them. "Too bad to have a couple of tourists spoil it" they said. Nice man & girl. only ones of party who could make it. girl's husband was at fossil bed below. Told them about goats on Wapta cliffs & then discovered grassy shoulder below us, & just above Yoho Road was lousy with goats. Counted 21 — Kids amongst them & doubtless there were many more. Another group of five below us on cliffs traversed ridge almost to col after leaving couple to descend in small shale. Goats had gone over traversing snow bridge but was so narrow & thin it looked too weak to hold them. Ridge

covered w. goat hairs + baths
+ I came down one to shale
below. Went straight down to
stream for second lunch as
I ate little before. Boy from Chalet
on horseback passed above. Was
doing trip so he could take people
over it. Told him where trail
camp site was + also trail to
Field - Rain started + I beat it
up to campsite + got under tree.
Hoped to meet boy again + give
them my extra sandwiches
but he had gone on without
stopping. Then it hailed! Saw
five tourist party meet on trail
below fossil bed, + sit there non-
chalantly through the rain. Then
I cut up + over to low point on
trail where it comes out of
timber. It was then 5:30.

Reached lookout point at 6 pm
& Chalet at 7. Some of the switch-
backs forget whether they are
going up & down & amble on
the Mt. side back & forth. Too
many of them. Went to dinner.
as was, & read paper. & hum bath
& bed, tramping to Sig's room
as Cute was asleep & I too tired,
read Time wh. just came, too much
beer & had too big a supper too
soon! Slept late.

Thursday July 24. Sent postals
& wrote diary. Cloudy & damp.
Mrs. Breck who married a Park of
West Chesta & lives somewhere near
Phila is keen to go to ridge for goats
weather too uncertain - He likes E.L.
& wants to come back. Says it has
everything here one wants - In aft.
went to Hector to get things gnes

left there for me after o'Hara. Then stopped at Tunnel View Tea house bought postals of bear + little bear on walk into tea house; saw train go through tunnel - first time for Sig. Then home. Read Time + N.Y Times which Miss Maule lent us.

Friday. Walk up Emerald glacier Draw. Miss Watt from Club house told of finding sand pipers nest at end of lake with young ones just hatched. Tried to find it but saw only parent birds. Killdeers there too. Men fishing + one at least had nice sized trout. Down pour as I started up draw. Sat under tree. Then on up woodsy steep trail Robins woodpeckers + other birds. Took picture of red toadstools - Could see route up to Mt. President - probably a walk - Rock slide ends trail.

moose + deer tracks - Miss Maude Said walk took 1 hr. + 20 min, used to have lovely alpine garden of wild flowers there ruined by rock slide this year when cloudburst came about June 21st - Came down trail in 20 minutes - More downpours + came home dashing from tree to tree with 10 min waits between pours. Nice little campsite near woods on flat at end of lake. Home late for lunch but everyone waited for shower to abait before going up for lunch so all were late. Read "Kitty Foyle" by Christopher Morley in aft. + eve. as it was rainy + uncertain - Poor book + unnecessary if amusing. Silly picture of Philly + you don't feel as if you had learned anything of people or of Philly afterwards

Sat July 26. Breakfast at 7:30 + left for Icefields Highway + walk up Mosquito Creek - was on trail at 9:45 am leaving car at picnic camp grounds. Took right bank of stream as map + my memory put trail there. Both were wrong. Up nice trail along stream bank - no blazes - then moose trails through willows. Soon diagonalled upward + found myself at timber line + skirting benches above cliffs - Startled spotted deer from thicket of spruces. Ate sandwich on projecting rock + surveyed desolate valleys. Nice view of Dolomite peak. Ken on along tops of cliff benches. Decided to ~~start~~ back several times but got lured on by grassy ledges. Descended into head of valley with lovely green meadows across creek on other

curve of valley. Decided Nolan Pass was 45 min to an hour away & wouldn't give much of a view so I would drop to valley & come home by trail which was very distinct in upper valley. Drank at moose pond of warmish water but I was thirsty. Took picture of head of valley from big rock. Then found trail & came down. Was on proper right of stream all the way except for one short stretch. Had to cross side stream from one of headwaters draws of Mosquito Creek. Wondered where we were on our famous out-all-night Dolomite trip. Took picture of pass with glacier there. Reached car at 4 or sooner, trail coming out on road just below bridge. Went to Louise & got sleeping bag & tent which I had left there. Hard

gave them to me. wanted hair cut & shampoo but they were too busy. Had delish ice cream choc. malt shake at Deer Lodge wh. went to the spot. Had tires aired as they were down. Reg. in effect about gas & not sold after 7. pm. or on Sundays Freight cars piled up between Divide & tunnels & heard later that 2 cars were derailed in tunnel or nearby. After dinner Sig & I walked around lake to see sunset & reflections. Vases & clouds had lovely purple haze tint. & not we see our Summit Lake Pass was beautiful reflected in water.

Sun. July 27. Sig off to Yoho via Summit Lake. Mother & I to pick her up at Yoho at 4 pm. Watched trail from our balcony with glasses & riders led by white horse. then

two hikers; another rider + another hiker went up trail. Understand Misses Mauk + Fokes. were going to Yoho too - greased boots - an historic occasion. Looks as if it was clouding up but quite comfortable on porch. Left about 3 pm, + seeing train at field, raced it up hill, over crossing to Tunnel View - Took pictures, both movie + stills. No plume of smoke as last train we watched had. Crowd of people on porch + man let me get in best corner for photo. Then up Yoho road, a bit late for Sig whom we were to meet at 4 pm at Yoho. Young cow moose on road + I chased it down road in car as I opened movie from dash - Doubt if I got anything

As soon as moose got up bank off road. bear cub appeared at edge of road but scrambled down into woods before camera could come into action. Found Sig & Mimes Mauk & Forbes at Yoho. had had lovely trip. Miss Mauk offered me lemonade which I accepted - Then to see Falls wh were very full, & up road extra mile to stony creek to see if it was acting up. It wasn't but Yoho was very full & undermining road at spots. To field to get birch bark for F. & M. but don't have it & drug store is closed because man left for good job in Vancouver the town owing him some $800. This from Muriel Curry - who runs Brewsters - is 25 yrs old & Sig says

wants to take nurses training. Misses F. & M. know all the bus drivers Neilson the Swede, curly haired who has been w. Brewsters a long time & "Hank". Also Austin who was with us in 1924 is at Yohs camps as guide, sent. me greetings. Reed Morgans came in tonight, also Mr & Mrs Walton, & the J.C. Strawbridges have been here a couple of days. Chalet is very full & Mrs. Jackson doesn't know what she will do tomorrow.

Mon - July 28 - Decided to chase goats from Yohs. going up from road at point just beyond big switchbacks. Left Lushuely & started fr. car at 11 am. Bushwhacked all the stones of stream & avalanche come down quite far. Then into couloir - Took me 2 hrs to reach pseudo top as seen from road - not

but sun was in most of time. Moose had been eating willows Also horse signs - Top of coulois intertwined with goat trails. cliffs + scree gullies - came out in spruce trees + spotted goats on top of white bastion rock surveying landscape. Had already seen, heard + scented me. Wind shifty + wrong altho was down valley on road, + also above, by clouds - went on hoping to find water for lunch. No way to stalk goats. Alp land all in view altho coulois cut across it in many places. Saw mother goat + baby directly above but decided not to go around. Ate jam sandwich + egg which fortunately was not hard boiled. Then up hillock facing cliffs + counted 21 goat heads on skyline

& several other parties on cliffs.
One old bldy off to left by hunself
rolling down stones galore - found
stream, very silty & dirty one
to left - ate again & explored
valley to right, lovely arnica
gardens there among grey rocks
but sun is in. This is probable
for most part as I had left dark
glasses in car altho I didnt dis-
cover it until I returned. Then
descent by spruce trees at side
of gully & in gully where stones
did loose. Not long way down.
Got to car after 5 pm. drank full
thermos of tomato juice - Then home
Letter from Isabel telling of lots
of bad news, but Pat is better, &
mother is writing her about Mary
Hagerty's bond which is in my box
at Fidelity - Talked to Reed Morgans

in evening, then Miss Maule then read papers. Late in turning in & slept fitfully only.
Tues. July 29. Wire from L. Prescott saying she is coming out of camp tomorrow - Wired we were terribly sorry to miss her as we leave tomorrow. Lunch at Banff & Calgary for night. Rec'd Morgans bgt - have Packard open car, leave baggage unprotected in back - Ran out of gas on way to Field & Chink boy took their can to Field & back as mileage is 15 miles more than when they left. At Mrs. Morgan Reps record. Are going to Icefields & Jasper but have no reservations. Wrote up diary on porch wh. is just right temp & very pleasant. Sig packing. Have headache & slept in aft. Then at 5:30 tried to get picture of

Burgess from across lake but it was too late + too cloudy. Met Mr. + Mrs. George + Mr + Mrs. Madelin on way. They eat together in dining room. Visited Maule + Forbes on way home. David Measuroll + wife here w. friend Mr. Merty. Told them about goatsele

Wed July 30. Packed + got off at 10:15. all bags in car. Miss F. gave us box of candy as farewell present. One coyote ran across road - nothing else. Went to club-house first + got Mrs. Lyell + C.H. who just squeezed into car - Taking my films along + they have been much enjoyed. Lunch at Homestead very good. Murray Adaskin dropped in to say goodbye. Sign + Jupstown to buy film cement etc. Tried Hannon, Noble, Hotel. Dan at hotel + told him we were at Homestead but he didn't turn up

there. Took Mrs. L. & C.N. to Red & White Store. Man there who knew me probably Bob Cathcart. Then to Dan's to say goodbye to many. Dan not home yet. Then we're off at 3pm. Flock of sheep on road Sig chased them for me. Also lots of horses on road probably from Trail Ride. altho all the cowboys were Indians. Took pictures. Arrived Calgary about 5:30. In Palliser East side 5th floor. Noisy as ever w. bells clanging & engines shifting Hof. Looked out of window onto station. Saw several groups of men in uniform entraining. Supper in coffee shop we used to be main dining room. On top floor sun porch afterwards to see sunset, mts. & view of city. Then to bed. I in one room. Sig

with mother who slept in spite of noise, heat & light. I turned bed around, dreamed a lot so must have dozed. Pollution lived up to its reputation for noise. Thurs. July 31. Awake so got up at 7 am - breakfast, took car to Red Arrow garage across streets Caty-corned. Went to barber shop when they were sitting - 2 barbers but can't begin till 8:30 - One cut my hair, then another shampooed it & put me under dryer. Both girls had appointments at 9 am & just arrived at five of 9. Did pretty well with only 12-15 minutes. Then upstairs & out to Kodak Place for film cement as they had none in Banff - Bought "V" badge & sticker for car - off at 10 or little after. Road good - Ran 45 per but

Mother thinks its too fast. Bought gas at Claresholm + lunch at Java Shop in MacLeod - one block off main St - not bad - is the bus stop. Reached Pincher Creek at 3pm + stopped to say Hoody-goodbye - He goes Sunday to Banff to go on C.N.'s trip. W. Hamm outfitter. Reached Many Glacier about 5:30. Waterton gate to Border is 15 miles; Border to Babb 20 miles Babb to Many 12. Have rooms on same corridor No. 114 ~~112~~ 116 but nearer main hotel - larger + very comfortable. Carpenter fixing lock + will put up rod in closet to-morrow. 3 still boxes + 2 movies here. Mr. Ellis the manager greeted us + several of staff are the same. Sig on first floor tonight but will move to 112 tomorrow.

looked at pictures & went to bed early.

Fri. Aug 1. Man came at 8 am to put up rod! Came back about 11 am & did it very quickly - Sorted pictures - sat on on porch - cool wind, otherwise warm. storm brewing over Cracker Lake - Took week to Josephine before lunch. Read Time covers to cover. Will hike tomorrow Have rooms 212 & 214 - sharing balcony with couple next store Mr & Mrs. Partridge - he interested in photography & showed family pictures - very good black & whites. Rodriguez's lecture in evening on Pioneers of g-P. little information & short. Had Kodachrome stills - Jim white

talked afterwards on Grinnell trip. Same jokes but not as fluent as 2 yrs. ago.

Sat Aug 2. Cloudy & completely dull day. Got up promptly to go on trip, got lunch but did not start till 10 am & then left camera behind. Little sprinkles of rain. Saw nothing but Gophers who scurried in alarm to their holes as I approached and a number of snakes who wriggled off the trail. Went as far as Morning Eagle Falls. Good trail, wide, a bit dusty. Two foot steps on trail ahead probably man & boy. Saw several jays one side blue jay home but had dark head & shoulders; ravens. Also

fool-hen & 2 half grown chicks on way back. ate lunch on rocks near falls. Typical G.P. lunch box but I had not taken coffee pot & did not make fire - Then home. Watched Whitt's guided party across valley & also a number of hikers on that trail. was far more popular than Pregan trail. Home about 4 & expecting to find more pictures here. Disappointed & no mail - Bath & settled down in lobby (room was cold as heat comes on only at 5 pm.) to read & write. Mr & Mrs. Reed Morgan arrived & found me there. They had been to Jasper stayed at cabins there, loved

Icefields (wee ice at chalet
however as every body is)
where they stayed two nights
sat & looked at glacier - Mrs.
John A. Stevenson also came
up - Mr. S. on way to convention in
Coast - Their son in S.A
studying - Then to dinner.
Mr. Getz who has just ar-
rived has gone fishing in
new (last year his wife tells me)
waders Khaki colored, on far
side of lake. After dinner
Mrs. G. offers us fish for tomorrow
will have them for lunch at
one. Morkins asks Mr & Mrs.
Partridge & I ask the
Morgads to room for pictures
Covered beds & suit cases &
showed them on pillow case
tacked to wall. appreciative

audience & Mr. P. is tele-
graphing for an Argus camera.
Party broke up at 10 to 10.
Sunday Aug 3. gave Mrs.
Morgan my "V" badge I
bought in Calgary. Found
Mr & Mrs. Sum out here -
Started out for walk with ruck-
sack - friend (man) with
them. I walked around
Cafe slowly in civilian clo.
Clearing very slowly. Man
on bridge had caught fish
Found 2 boxes of pictures
in mail box. Looked at them
with Mother & Sig - sorted num-
bered, & dotted them. Wrote
diary. Promptly for lunch
as we are to leave getty town.
The best lunch we have had
so far. Took pictures of

gophers about 25 of which are on green lawn about flag pole - are constantly fed by tourists two & three on one's lap at a time Mother talked old times with Mrs. Morgan - Sums played bridge across from them in back - Spoke to Linda after supper - She introduced me to Mr & Mrs. Wheeler - he a N.Y. attorney - Then Mrs. Wheeler to everybody right & left. Miss Dabb, Mr. Ellis' secretary, & Miss Lucy the housekeeper. The staff are giving a pow-wow with wieners across at camp ground - old timers asked. Linda L. called me at 10 pm to go but was reading Foreign Affairs, Mother was about ready for bed & I said no.

Heard them till after one am however - singing & laughing Decided to read as I wasn't sleepy & went into bathroom until 1 am when Mother came in -

Mon Aug 4. Decided to drive to Entrance to get movie films wh. are being held for customs I have to sign slip personally or pay #2.50 - Morgans left after breakfast & Mrs. M gave the box of "cookies" a preparation on tabs of cloth to wipe off dirt etc as parting present. Said we had added much to their pleasure while here. Drove slowly to Entrance, had lunch & then I went to get films & gas - Why did I see but Mrs. Morgan - They had motored over Logan Pass

+ around by the R.R. pass
we now buying snacks for
lunch, en route to Browning
Got films + returned to hotel
While longest line of red buses
were lined up. Nice looking
young drivers - all with cameras
the Burlington Tour. - will be at
Many tomorrow - Drove slowly
home - road pretty good only
shoving gravel around in
one place. Went to Rangers'
lecture - new one who was good
talked on geology. Afterwards
his wife asked me to stay for
other pictures - He had just
had two boxes of little Koda-
chromes returned + wanted to
see them. Stayed + Sig came
back. He has undeveloped some
others lovely - His two little girls

sat in front of us & wife says they walk around a lot but Rangers have to stick to certain walks day after day. His name Bullard - The poor talker we've listened to 2 nights is Holloday.
Tues Aug 5: Got up & out before either M. or D. were awake - left at 7:45 for grinnell glacier - Took trail to west of Josephine Lake & then foot trail to glacier. This was new to me, marked passable but unfinished - proceed at your own risk - was narrow & climbed up rocky ledges at one spot. Found elderly woman ballooning up trail - Her husband had gone to grinnell Lake for picture - Told me she was 68 yrs old Also told everybody she met - Took pictures of flowers - arnica

on rock. Astus below trail.
Monkey flowers yellow by stream
Then elderly man appeared
(about the same age he told me)
They went on & second elderly
man appeared as I approached
lunch place - The two met &
found they had met two years
ago at Lake Louise. Then up
to glacier wh. is all open, no
snow, few crevasses - waded
all over it - Two lakes by side
Came down to moraine on far
side of lake & had to go pretty
far down to cross. Joined horse
back party of 2 & guide - a Mr.
Keedly from Chicago & son -
has been in Rockies - as well
as Whilts party - Two women
mother & daughter are camping
out over at campgrounds.

Elderly couple are in blue & white trailer - woman from hotel wonders as she doesn't like now & has never slept out. would like to do both but can't sleep at many as hotel room is so noisy Asked me my age as we went down trail, I talking movies - She is 50 - & thinks 6 years made a difference - after they left I took trail thro round bluffs & then cut straight down stream to lake - Stream went all the way but alders covered it at lower part - quite some bushwhacking Levis bent thrust out croppings of rock, fun to go over & almost some high cliffs. Ranger & party at lake on far side - waded around lake for while, then cliffs or deep shores sent me

bushwhacking on hillside again. Grinnell Creek runs out of lake below high perpendic bluff. log jam below - Came down rocky ledge near head of river, waded it as it wasn't deep - then waded & followed banks down to bridge not far - Home by trail west of Josephine 3 fishermen at end of lake - Found with rangers party just leaving might have taken it back if I had gone east of Josephine Couple on trail asked for speed-boat! Man said he was tired. Some of staff in boat in order of Josephine singing & laughing Man using oar. Standing & stripped to waist - Hotel at six bath etc. Mother went to lecture by third ranger - no good

was on trees & flowers. Wrote Kay Prescott. & Kate gardiner wife Mrs. Wedgwood wrote Mrs Lyne had shingles - War news not so good as new thrust of germans threaten to cut off Russians

Wed Aug 6. went to Sun Chalet for lunch. a long walk from parking place to dining room & I got permission to bring car down service road to get Mother afterwards. Took some pictures on way along St. Mary's Lake mostly flowers. Roads lined with golden rod, asters yarrow, everlasting, harebells; stone crop. monkey flower, red & yellow high up these last two - Also large dandelion like seed pod very stiny stemmed & bigger. also Canadian thistles

mullens about to bloom + bear grass in seed with long ugly spears. Got gas at Babb at Calco sign marked Standard. Showed park license each time at gates going in + out. Chipmonks on sun porch + high wind. Glad we cancelled our accom. there + to stay at Many. Morton said we had head soaked in salmon for lunch (choice of salmon loaf, beef stew or pork) St Mary's Lake, a deep blue, like Crater Lake. Took picture from highest chalet on cliffs. Hill's cabin on point has been removed. after lunch we drove up to Logan Pass. They are widening + heightening one tunnel with one way traffic. Lovely drive + B N J. + Leg enjoyed

it greatly. Turned at pass & returned. Small doe stood by waterfall, then crossed road at bend. Took movie & still. Then home by 4:45. Ran around to campground & took pictures in aft. light - fishermen all out in. Mr. Getz & Mr. Swanson. Met tourist woman on trail & drove her back to hotel. In eve. Sig & I returned to attend camp-fire there. Bullard the ranger spoke on animals - his wife & 2 girls there - one only 11 yrs but tall. He said there were only 120 grizzlies in park. That gophers (Columbian ground squirrels) had eaten 1200 lbs of peanuts this year. (Hotel had sold that many & more out of them. Three goats on Grinnell ledge above campfire. Rangers take

census each year - a sample multiplied by area - Moon came up as talk ended about 9:30.

Thurs. Aug 7 - Decided to go to Iceberg Lake - Left about 11:30 from camp ground - up trail hoping along + taking pictures mostly of burnt forest - Lunched on Stream above trail at junction of Ptarmigan Wall + Iceberg trails Boys w. blankets in packs were stretched out on flat rocks on trail - Waterfall w. lovely pool at bottom near bend of trail - Went up Ptarmigan Wall trail short distance to old campsite above lovely cascading stream. Made fire for coffee + ate lunch sitting on mossy ledge of rock. Then on to Iceberg Lake. Lots

cut off trail to right of first lake - then up cliffs on goat trails to shale slopes far above. Artist Lopp & wife below sketching 4 goats on mt. opposite, two taking dust baths. Returned by route of ascent after exploring goats paradise above - Came off lake & started down trail about 6 pm. Reached camp ground just after the lunch room stopped serving dinner. Everyone on porch looking at goats graying on grassy slopes of Grinnell Mt. Had soup & pie a la mode - very good - Then home in car blinking light to Mother who didn't see them as she was watching at parking place. Sig out for walk met me on trail - Dressed & to Rangers talk late but saw his new Kodachromes & showed him some

Jasper + g. P. ones too.

Fri Aug 8. Trip to granite Park Chalet over night. Drove to Logan Pass + parked car. Hidden Lake is 3 miles so pass that up + cross road to granite Park trail 7.4 miles so sign says. Trail cut out of cliffs above road reminds me of Gemini Pass in Switzerland Several streams so did not worry about water but latter half of trail is dry. Streams there but no water this late anyway. Ate on trail cut out of cliff. Burnt lunch box but no pail for coffee. very sunny + hot. Clouded up about 4 pm. however. Used shade + rolled up jeans - no bad part of time. Many gophers + some marmots. Seemed long seven miles. Passed up path to grinnell

Observation Point ½ mile from Chalet. Then changed mind & returned, hung mack sack on sign post to keep it out of goplins way. Had passed no one on trail except two girls in pajama suits & shoes with toes out sauntering down trail (probably going down 4 mile trail short cut to Logan Highway. as they did not return to granite. Grinnell obs. Pt. Trail steep in places, cut along bottom of small cliffs. Nice view on other side of glacier & marginal lakes - up on cliff to right one could see three lakes. Grinnell Josephine & Sherburne - (Swift current out of line) Saw Mans sack coat & hat stuck in two trees but no man in sight. Looking down steep within

couloir to glacier saw boy below looking up. Waved to him & he seemed to be trying to get up. Took pictures with cloudy sun & returned. Very thirsty but had no cup. One spot only on trail was wet & dripped one drop at a time. Did not lick rocks however. Passed stream just before reaching chalet. Given room # 11 stuffy & blankets a bit horsey. Had pitcher of hot water & dinner was announced at 6:20. Ate with seven others at long table. One couple turned out to be Mr & Mrs. J. Alan Montgomery of Phila. He eats at table w. John Jess & she was at League of Women Voters & recognized me. Another couple; & two boys from Oakland, Cal. & lone girl a Miss Hubing from Newark

New Jersey. Montgomerys were on North Circle Tour with man + his three children. Tour is 5 days many - to granite to 50ty Mt to goat Haunt to Coosaley to Many. Man + 3 children (around 15 yrs.) had gone w. granite chalet hostess to Lookout Point taking supper to see sunset + moon - full last night - watched white tailed doe + mule deer buck (two pronged) wander about chalet. the latter until dark. Lots of deer in meadow below with horses. Warm night, some red in west but a bit cloudy. Turned in before moon came up. Left door open to get breeze as none comes from south where my window is.

Saturday 9. Breakfast about 7:45 with the Likes. They left shortly after for Many except

miss Hubing who will walk to Logan with me. Watched Monty. party off on horseback. Mrs. M. has nose bleed - probably from altitude - Then Hubing & I started down trail. She is interested in flowers, birds, animals made notes in little book of all we saw. Had field glasses, & knows little as this is her first trip. Tame marmot on trail let me take pictures w. Argus. Ate on rock above trail as no water was available near only camp site w. pail that we passed. Man & girl passed "a regular" says Hubing - They had a dog with them & man noticed my edge nails. They had ski boots & metal clips on theirs. Reached Logan about 2:30 after few

suggestions of rain - Found note on key car from Frances Perkins Mary Read & Marion Wood. They had been at Many over night & Sig showed the pictures to them. Felt much disappointed as last night was only one I've been away & would love to have heard about camp. Left Hubing at Sun camp. She is decorator for Bell Tel. Co. & has 40 offices to equip & maintain Dark eyed intelligent girl. Knows her way around, thrilled to be actually doing the glacier Park trip she planned. Saw Gunsight Pass trail near road at Blackfeet Glacier Lookout. Arrived at Many - Heard about Wood et all visit, saw 2 new boxes of pictures - went to lecture by Bullard & saw other peoples Kodachromes afterwards. Sig made

date w. Mrs. Bullard to do
Applejunny draw tomorrow at 2
Sun. Aug 10. up at 7:30 - walked
down around Swift cement falls
in am. Saw water ouzel but no
nest - a bit late in season for
that. Bird sat on ledge under
rock above falls & perched
himself. Scrambled around
looking for place where nest
was as shown in pictures last
night. Didn't find it. Fisher-
man there below falls. Lonely
on our porch - Took pictures
of Mother, Sig. & Sig took me.
Had car washed last night
first time this summer. Sig
left at two w. Mrs. Bullard &
2 girls for applejunny in
Bullards car - Mother & I on
porch - wrote diary etc.

Took Ranger Bullard home at 5 pm & then went out to meet Sig & party. Parked in from road where their car was. & walked up short distance where I got good view of cliffs - No signs of party. Had left field glasses behind & missed them. Heard coyotes yelling in woods to east. Left at 6 pm Sig. came in pitch here 8 pm. Had come straight down the cliffs at waterfall in spite of my suggestion to Sig that she look where she went up so as to know where to come down. Mrs. B. led I think however & Fred-da the oldest girl-who is a mt. goat. Peggy a bit fearful. They got a little more than they figured on.

Sig skipped supper & ate the oranges we had in room. We sat on porch & the Partridges showed us their room, fed us. Fanny Farmer candy - Also showed us argus camera wh. he had ordered & received. It is bigger than mine but has range finder. He is studying the directions & seems to like it.

Mon. Aug 11. Got up promptly as was beautiful calm day. Left w. cameras for Josephine & Grinnell Lakes at quarter to eight. Lovely reflections - watched large hawk being chased by smaller birds - was something like the one Isobel has mounted - was sparrow color, with 3 bands of dark color on tail - Took pictures - Two

girls w. guide arrived at summit
seemed to love it all & espec.
the two goslins who were tame
& came up to them - Hurried
back as we were to leave for
Waterton at 11 am. Getting lost
on trail. Hoped to make a
connection but didn't. Missed
shortest trail & crossed at
head to Josephine to south
side. Left for Waterton to finish
uneventful trip - very warm
at Prince of Wales espec in
dining room. Sat outside, took
picture from inside hotel, of lake.
Then drove around town &
outlying roads, then to Cameron
Lake - waded in lake, had a
ginger ale. B.H.G. sat on bench
in shade by car. Point on rt
opp to right is boundary pt.

of alberta B.C. & Montana according to crowd talking there wh. I overheard. Cooler on way home. arrived 6 pm. Talked to Mrs. Bullard, heard part of geology talk by Fred B. the ranger. He thinks wife sh. stick to the trails. Had some new pictures. Rainish outside.

Tues. Aug 12. Cloudy but wind came up in am. Sleepy & tired Sorted out my pictures as mother was rubbed & dressed. Left at 2 pm. for Cardston to see Mormon Temple. 27 miles from junction 4 miles N. of Babb. Warm out of nuts & sun out most of time. Cloudy at many all day. Man at Canadian customs took my car license & gave me days permit

which I handed in & got back license on return. Was more facetious & talkative than Waterton customs. Said he had seen me before which was funny as I hadn't been through that entrance before. Mormon Temple has lovely spruce trees in court yards. Closed for repairs, woman guide said. Home by 5:30. Met J. A. Montgomery's - back after fine day horse back trip - waiting for dinner - great mob waiting outside dining room when we went in. They liked Coty Mt. camp best. Only ones there - best food - best Rep't. Are to be here several days. Went to Ranger lecture in eve. w. Sig. He the relief day man.

Wed Aug 13. Rainy for first time since we arrived. Whitts horseback trip cancelled. Wrote letters & postals all am. Clearing in the afternoon and promises to be very fine

Thursday Aug 14. Will leave for Cutbank Chalet this aft. Man at desk hastried to phone but no answer. Sat on porch & watched three goats on grinnell Point. one on grey hebon cliffs, two on cliffs. I had seen them from Swift current valley in am when I bushwhacked up stream & around lakes from parking place at camp fire circle. CCC. boys cutting logs there & loading them on trucks. Pretty falls on stream away from trail. Mother & 2 children on horseback w. guide rode to Red Rock falls. Sun in & clouding up. Returned home & pointed out goats on ledge. Left at 3:30 for Cutbank Picked up boy & girl hitchhikers at junction. Said they were

dish washer & lunch girl & had hitchhiked from Sun to many, walked to grinnell Lake where they ate lunch & now had to be back at 5:30 when everyone had to be in Left them at St Mary Junction - Passed sheep on Cutbank road, the flock bigger than ever & rushing in front of my car - a chuck wagon parked in field beyond & below road. Cutbank kept by man & his wife & they have 14 yr. old boy who has gone w. trail boy to show in Browning in Model Ford. Woman cooks, man does everything else. No guests there. A New York car parked there by bikers who spotted it (from Sun we heard later) also Montana fishermens car. Man & small boy fishing creek, seemed excited at 7 inch

fish they caught in stream. Had been out all night on their trip. in breaks but no matches given room (NO I) in chalet with 3 rooms. largest w. fire place has 4 double decker beds in it. Spigot outside door for cold water. They bring you pitcher of hot in am & at evening if you wish - or have showers in main house. 3 chalets besides main one. All trails start at bridge over stream. wandered around trails & place, after eating dinner (alone, served by the man) finally down road where I met the couple coming back from campground. Ranger Mr. Frank Guardelie(?) rode by in early eve. To bed when it seemed chilly & I piled on the blankets.

Triple Divide Pass.

Fri. Aug 15. Called at 6:30, B at 7 & off at 7:45 w. lunch. Wrote letter to mother for man to give to truck driver whom he meets at Junction for supplies this am. Man & little boy is back again to fish - all enthusiasm. Woman sitting in car - Trail through woods for how or more with few lookouts Stream near trail just above a long canyon where fishing is said to be good - Three miles or so up Cut bank trail goes to left. Atlantic Falls short way up it - Trail wooded tent at intersection. Trail to Triple Divide Pass divides further up, one fork to left being marked Atlantic Lake - Took it & could see right fork going high up along hillside to pass - My fork went through meadow but not to lake - Near it at outlet

but then kept high up on valley side too. Kept on as this had fishing rod & care to carry. Saw young goat on rock cliffs moss covered below me. Thought of waiting thinking he might come up past me - wind strong & full in my face - but was thirsty & saw stream by trail further up. Kept on & ate lunch by stream watched goat come up exactly where I had been. He kept diagonally on up ledges & finally disappeared after lunch, it was only 11 am, I went on, trail goes along ledges & switchbacking from one to another. Reached pass - not a soul around. not very interesting on other side & didn't even take picture. Triple Divide Peak is just above. Melting ice at foot of cliffs sent boulders crashing down - a chipmunk or two

chirping & I thought I heard a ptarmigan - These only broke the silence. Returned by high trail hoping to see the goat again. So couldn't fish lake. Started to fish at Atlantic Falls. Trail boy was playing mandolin as I passed in tent - Got one rise at falls - then started through brush - Rough going & almost impossible with ice ax & rod case jammed in rucksack. Rained a bit & brushes got pretty wet. Saw some fish are small. Finally returned to trail & falls & then to trail workers tent. He was outside & asked what luck. Said it was good below here. Man w. boy had nice string & had just passed - He told me what fly to use - silver body & blue wings. (a Silver Doctor?) & two others of first

didnt do. Started down creek wading from bar to bar. Soon up to over knees - Small muddy stream comes in little below + fish were jumping them like mad. Hooked one + soon tossed him on bank. Broke leader off fly. Fish about 7 inches - Tried other flies but no fish. Two boys across stream below + from them One can fish both sides. Stopped jumping soon for short time. I was cold with standing in creek + left. Hit trail from open meadow there with only a little bushwacking at small inflowing stream. Tried one more place above canyon + while there boy rode by on horse - Son of couple probably - gave up fishing + carried one fish home - Found party of 7 hikers

had come in over Triple Divide Pass. Two of men - one Joe Bauman of N.Y.C. - had climbed Triple Div. Pk. "Pretty good without a rope" one of them said - Two days walk from Sun to Red Eagle to Cutbank was enough for one girl who said she was not a hiker by disposition but wanted to experience the country more intimately by hiking through it. All ate together - Read "Mission to Moscow" by Daisy Hamiman in eve by gasoline "Pullman" lamp. Sat Aug 16. Decided I'd had enough of Cutbank - would go back to many. Hikes left too. Drove to Entrance to ask for films - none there - read paper on porch about Roosevelt-Churchill conference - Beautiful day + clouds superb - Drove slowly back, up Logan Highway as far as line of

Mullens wh. were hot. Sun & set where one sees Blackfeet glacier. Long line sh. make a good picture but didn't, Sun was in too so came back - Had soup & pie at East glacier Camp - Has coffeeshop, lobby, store, cabins & camp. ground - quite nice. Is near Lake Shore (across road) so has access to lake & boats. Then to Many & sent word by bell boy that we could go to Babb & so we did & north a few miles. Beautiful clouds all aft. but it rained at Many at noon - Talked to Bullards in eve - went to lecture on Nat'l Parks by Bullard - Ranger Holliday & wife came - he became ill one turned up at camp fire probably too cold - Then Many from Univ of Minn. who had sent for projector showed some

new movies of Bullards + one reel at
of his own. His name was Wentz
I think. Met his wife + a maid
who operated the outfit. Then he
showed 450 feet of mine -
Indians not bad - Mother came
down for mine.
Sun. Aug 17. Sig to go to Morning
Eagle Falls + home by Pregan
Pass trail. I up to Stump Lake
+ Josephine, taking pictures
of Bergamot + butterflies. Then
home sitting on porches w. Mother
writing + chatelling activities
about hotel. Little Jr. Aunt Ella
announces Geo. McCreary's marriage
to Nurse Chris Quinn in Silver
City - Read Time most of afternoon
+ Sig home about 6:15. Went
to Ranger Holliday's talk on duties
of Ranger Naturalist + also read Mission to North

Mon. Aug 18. Left at 9:15 w. lunch to scramble about mt. grinnell. Up the glacier trail which I met 5 girls & 2 other parties walking to glacier - Told them about lakes & one of girls says she "didnt know anyone ever walked up there twice" All girls bathed feet in stream Then I left them as they went on up trail. I cut up to left of stream to grassy lane leading to right at foot of cliffs. Easy going - lots of bear grass but not all topped by spearlike seed pod. Around all rocky ledges easily & up to col by two long not steep easy contours. Saw goat disappear up grassy lane to left. water from snow bank at top of last contour. Basin up there at foot of horn peak & shale summit

the latter to my right - Ridge Cont'd
above basin & from top I looked
down on valley above Red Rock
falls - falls & lake down valley from
my pt on ridge - Could have made
shale summit with some scrambling
over hard ledges on ridge, probably
in about an hour - maybe less.
Returned to basin & then pursued
goat on ledges towards summit.
He was sitting below on shale
bank but saw me & made off -
walked around on ledges towards
summit but decided not to risk
being hung up on a cliff in descending there so returned to basin
& couloir of ascent. Traced route
exactly down to trees but then
missed grassy lane & got hung
up on red rock cliff - Hunted place
to come down back & forth for some

time finally took route by bottom of grey rock & willow brushes. not as good as route of ascent wh. I discovered later from below was further over towards gannett gl. side. Down on trail about 4:30 Hikers by pass .6 mile by sign took me 14 minutes - one stop to watch deer in stream above Josephine. 4 girls there watching him - walked home with them from chicago - on two day trip in park. Got home at 6 pm hot, tired, dirty. Bath supper looked at glacier Park 1939 pictures in room in evening Sig made arrangements to go to granite Park Chalet tomorrow from Logan Pass - to be away one night.

Tues Aug 19. work at 6:10

& called Sig who was already up. Breakfast at 6:30 earliest dining room is open, then off about 7:10 to Logan Pass. Beautiful am. Saw Sig along trail to where it descends to road then home, taking some pictures of St Mary, one from Chalet on east side. Sat on south porch w. mother & talked - finished "Mission to North" played solitaire - Slept in Sig's room delightfully dark but noise of people going up & down stairs too loud - Read Reader's Digest until 12 & then couldn't sleep soon -

Wed Aug 20 Sat on porch & talked - at 3:30 went to camp in car & walked up Swift water trail almost to Red Rock Falls. Sat on little hill & visited. Storm coming up but large shelving rocks were nearby - Located

5 goats on Grinnell & then found the flock of sheep on Altyn. Came back to cav when storm started up valley. Showed Ranger Holliday the sheep. Then to hotel but we cant see the sheep fr. our balcony on account of the main bldg. Then decided to go back fr. Sig & Ranger Bullard drove up at same time, Sig. Mrs. B. & one of the girls arrived & storm started all at same moment. Told Bullards about sheep & they saw them later. Sig had lovely time. Met two girl hikers, one fr. Sierra Club who was a good woaker. They went to Grinnell Lookout together. Saw lots of goats & fine quite close. Sunburned but not tired.

Aug 21.
Thurs. Washed hair & tried to curl it but there is no marcel permanent. Lunched at East glacier & then

took launch trip on St. Mary Lake at 2 pm - Storm coming up. Rain when we stopped 10 minutes at St. Mary chalet - Cloudy most of time & poor for pictures - not as spectacular as road anyway. & water not as blue. Boat run by university boys - girl friend steered most of way - about 20 people on board. none very exciting - Capt pointed out goats on mts. of South side of lake but jiggle of boat made it hard to identify - Two women hailed me as Miss Seglin as I got off. Think they are glacier Park chalet people - en route to Red Eagle. One was at Many this am. I saw her & spoke, but wondered who she was - went to lecture on Indians in eve by Bullard. Sig & I have heard all of them now.

Friday Aug 22. Was to have gone to Kennedy Lake but got the curse Mrs. Bullard, two girls & Mrs. Holliday went to pick blue berries in appekunny & did. Walked up to inlet & at 11 am we left for Two Medicine Lake for lunch. Picked up two of Mary's boys - girls one the salad girl, one dish washer, who were on way hitch hiking to Logan Pass. Left them at St. Mary. Saw flock of sheep on pastures above road, I think between Cutbank & Two Med - Got to Two Med pick in time to have lunch w. trout but probably lake trout as it was in huge cuts. Drove around camp ground & saw assortment of tents, tarpaulins over cars, trailers, campers etc. Have extended grounds since we were there. Then to Trick Falls where the upper fall has dried up & only lower operates. Rainy & stormy but clouds quite nice

Time came & I read it all we. Mother & Sig tried "Kan-u-go" a game Mrs. Bullard lent us. Quiet an idea of cross word puzzles.

Sat Aug 23. Mrs. Bullard dashed in at breakfast & asked us all to their cabin in afts I went fishing at inlet. Saw one seven inch trout swimming around several times. Finished Time after lunch & then at 3:30 Sig & I went to Ranger Bullards. Saw the girls collection of horse teeth & animal bones & skulls which adorn the railing of the cabin. Cabin has bedroom & Kitchen, shower, & storage closet. Mrs. B. paints & has done four or five mt. scenes. which are on frames behind bed. Frames were made to look at Kodachromes by C.C.C. a fantastic idea as they are about 4 ft by 2 1/2 ft. We played games in Kitchen, the

children preferring games of chance to games of skill - Bullard came in as he was on information duty at camp. We all had tea & then walked to Wilbur Falls & up stream a bit which is similar to stream as it is above junction of Ptarmigan Wall & Iceberg Lake - Rain every so often - Looked at 1941 pictures in room & took out poor ones -

Sun. Aug 24. Cold & blowy but slowly clearing - went fishing at inlet. Lost my spoon-spinner & later two flies & leader - all on logs or bottom. Chilly so went up stream - got one fish in stream bed. Stumps Lake & Josephine - about seven inches Had one other strike & several real babies tried to get on. No big ones. Lost fish in bushes & hunted some time for it having forgotten I had

moved it the last time. Got home about 1 pm. after cleaning fish & Sig took it down to dining room & Mother had it for lunch. Said it was very nice. Rested. afterwards got Mrs. B. & 2 girls & with Sig went to - 6 x Ranch some six or more miles out from Babb - where they were having rodeo. Ranch is owned by Saddle Horse Co. man. Got in for half admission because of Mrs O. Wild riding - one man rode bucker right through gate. Thought he was done as he lay on ground - but he was walking around soon. Another young Indian knocked out & took some time to recover - Had potato race - dressing contest - wild cow milking - one steer decorating broncho bucking, steer riding - one a saddle, calf roping - Calves

were pretty big. We climbed on fence but got down when they came close - others on fa side (where most people were, stayed on fence but once when steer came very close, most had to jump. Drove around ranch houses afterwards girls got a sheep horn in corral & requested it for their collection - Ranch has 2 large houses, several cabin like houses, built around a Ring of corral. Tepee put up w. auto seats evidently for pow-wows. Several tents in poplar trees near Duck Lake, wh is large & blue & not so very far from main house. Lovely views of Chief Mt. from road out to Babb. Mrs. B. also says one can go in road along St. Mary Lake - dirt road but passable - hired by it sometime. Got home about 6:30. In evening

Sig showed a Miss Hamm of around Cleveland, my pictures in her room She had met her at Granite Park Chalet. A nice girl, blonde, glasses, attractive. goes to Sun chalet in am. May drive w. me to Sun if I go to Spery. Also a Mr. Forbes, a Yale leader at Harvard, is at Many. Beautiful starry night + I would stay up to see + around big wood about 10.

Thurs. Aug 25 - Rain about 5:30 + although I had packed my rucksack to go to Spery, I decided to wait for settled weather. Breakfast w. Sig about 8. meeting Miss. Hamm downstairs waiting for bus. Met Mr. Forbes who will be here a day or two - is a decided person. Phoned Waterton for marcel wave at Prince. Some trouble getting through but finally got them. appt at 2 pm

& we will all go to Waterton for lunch. Picked up 2 girls & Steve, the breakfast boy on their way to Kalispell - quite a hitch hike I'd say. are to be back by noon tomorrow. Rainy & misty - Lunch at Pincer - Downpour as we arrived & we waited in car. Got shampoo & marcel at 2 pm the process lasting till 3:30 but its staying in. girl hadn't done one for some time & was nervous - woman under dryer was very patient & next customer a bit impatient. Morton & Sig sad & Bertha Home in rain & guess this is the break. Mrs. Ellis reported to have said "the semmel is over." In eve Bullards took me to coffee shop where had showed movies (& stills) of Hawaii after Lopps showed theirs again still unsorted & bad in with good.

Tues. Aug 26. Bullards let me have the projector belonging to Mr. Wentz + I looked at my new reel, cut out bad parts + listed scenes - a good afs work. Went fishing in afs. Lost my new spinner in the inlet on the bottom - followed stream to Josephine where Mr. Getz says I can catch 1½ lb trout. It is deep enough there near shore so I can stand + cast. Saw fish rising. + got several strikes. Caught 5 in all, 2 nice size + 3 small - Threw several babies back. One struck as I pitched new line to cast. He took an awful fling as I cast but he seemed all right. Very windy + rainy. Got very cold especially hands. Had on heavy Mackinaw + 2 stockings w. boots. but put on

my raincoat over buckskin jacket + red sweater to keep warm - Most fish rainbows but one silvery - got home in time for both lunch supper ordered fish for lunch at 1 pm tomorrow. After dinner, found Henry + Louise loaned at desk. They had walked to granite, then found two horses going back w. empty saddles + asked to ride them down. Had tale of horse dying on the trail there + 3 rangers went up to bury it. Have had lovely time. at Portland where friends drove them to Hood + the dam, to Rainier but it takes 3 days now to arrange to climb it. Then to MacDonald where Henry went up to Spery. Had good weather and sunshine, saw goats + a bear who might have been

been a grizzly. Louie went to Sun hot bris because of infected blister. Sat + talked. They to go to Crossley tomorrow, then to Goat Haunt + Waterton + take bris to Entrance from there. will be on our train east. Saw Bullocks at lecture, they have Chief Ranger Naturalist in tow + 2 students of Ned's who will put their sleeping bags in Badlands Kitchen tonight - a full house I should say.

Wed Aug 27. Mist down to lake + light rain - Catholic womens convention here, arrived for dinner yesterday. Sang last night in Convention Hall. went over to camp + found Wendts had not left. very disconsolate about the weather esp Henry. Showed the pictures in my room

asked them to lunch but they declined because of "eating all morning" gave them time & Digestete to read. after lunch, during wh. it cleared a bit, we three walked to Grinnell Lake & back around Josephine - Louise said how glad she was that they had stayed over. Henry had wanted to pull out & had found man who would have driven them to Entrance where their things are - Henry that it as good a six mile walk as one could imagine - Wasn't feeling well. Refused invite to dinner on account of clothes movies for Bullard family in room in evening

Thursday Aug 28. Cleared so ran down to Babb to take picture of chief Mt from -6 X

Ranch Road - In clouds at first but then cleared - Then back stopping at camp to learn Wendts had left early for Crosley. Went fishing after lunch stopping at Bullards on way. Fred was making slide of map of glacier colored by Fred-da. Will make & send me one - Left car at bridge by camp & went to deep shore side of Josephine - No luck. Saw several little ones, had one on. Several boys also fishing - None caught anything. Even Mr. Getz didn't get any either. Heard later but several fishing with worms did & one had hotel after supper - Returned fairly early as sunset promised to be good Had orangeade w. Bullard girls & Dr Ann

the boat owners child after eating at camp. Banquet at hotel for convention.

Friday Aug 29. Decided to go to Brushy Creek to see Chas. Hunter after Caroline's trip. They got in the 25th. Mrs. Bullard & 2 girls will go with me. Clearing & sky lovely. Took lunch & ate by little stream just beyond Waterloo gate. Arrived at Charleys about 1:30 pm. Miss Good making butter & Charley out on [illegible] ing machine in field near corbee. We drove out in my car through fields. Beautiful there with yellow wheat in "stukes"? Charley gave both girls & myself rides on the binder, one riding on tongue in front & other in behind. Girls slid down old hay stack there. Stayed almost an hour

took movies & stills. Then back with Miss Good to tea & very good tomato sandwiches Got away about 4:20 the two girls thrilled over the hay loft where they found a small black kitten. Mrs. Bullard so enthusiastic she talks of boarding the girls there two years from now when Ted returns to Glacier. He has to teach at Geology surveying camp for 60 Jrs & Srs. next year - Tells boys to get jobs for oil companys - Showed Bullards my still & some of theirs after dinner in my room. Mr & Mrs. Partridge also there & she has baby dozen Kodachromes from her first roll than she wants

to see. Thuje not too good.
Sat aug 3d. Packed in
am. Mrs. Bullard came in
to dining room to say
goodbye with girls. Told
Heard glacial Drift a
Magazine pub by Rangers
(It has lots of information in
it about the park & game)
& also the twin Indian dolls
I bought sometime ago, at
the desk for them - Pleasant
drive to Glacier Park Hotel
where I left B.H. & Sig &
then went to station where I
checked bags & car - Also
left hand bags in baggage
room - Read Time to kill.
Henry went at hotel - had
fine trip but that trail to
goat Haunt very tiring

I was all in, but Louise could have kept right on. They are on first section tourist - as is also Dorothy Barnes whom Henry found at the station. We are on second section. Dinner on train & to bed early.
Sun Aug 31. En route Minot, Fargo, Minneapolis late eve. Mr. Freeday whom I met at Grinnell Glacier & Sig at Granite on train. He stayed 11 days at Goat Haunt. Long wait for dinner as only one dinner to serve a long train. Slept best of any night for long time
Mon Sept 1st Labor Day. Arrived Chicago late because we waited long time outside

city. Breakfast in Station & then called Reamers. They were home - this is the anniversary of their auto accident returning from Wisbrechts last year. And arrived at the station about 12 pm - one their time. Talked in station & heard all about camp which they thought was great this year. Spoke of Longaker boys & their experiments on blood count. Our train left at 1:25 C.S.T. Lunch & dinner on train.

Tues. Sept 2nd Called at 5am to make N. Phila at 5:45 am when John met us & carried home for breakfast.
